Abhiraj Singh Thakur

Experienced Salesforce Developer/Administrator adept at crafting tailored solutions using Lightning Web Components, HTML, CSS, and JavaScript. Skilled in UI design, administration tasks, and resolving Service Cloud cases efficiently. Certified Salesforce Platform Developer/Administrator committed to driving business growth through innovative Salesforce solutions.

Experience

Tata Consultancy Services [July, 2022 - Present]

Albertsons Project (April, 2023 - March, 2024)

- Developed the "CAP application" on the Salesforce platform for Albertsons, employing Lightning Web Components, HTML, CSS, and JavaScript to create a highly interactive and visually appealing user interface.
- Leveraged Salesforce Lightning Design System to ensure consistency and enhance the user experience across the application.
- Demonstrated proficiency in Salesforce development best practices, ensuring the scalability, performance, and maintainability of the CAP application.
- Actively participated in code reviews, testing, and deployment processes to guarantee the quality and reliability of the developed solution.
- Successfully handled Service Cloud cases, demonstrating strong problem-solving skills and ensuring timely resolution to meet customer needs.
- Collaborated closely with stakeholders to understand requirements, translate them into technical solutions, and deliver the application within specified timelines.

Phillips Project (August, 2022 - April, 2023)

- Managed Salesforce administration tasks for the Phillips project, including user permissions, configuration, user additions, and role groups setup.
- Utilized ServiceNow and Jira for ticket management, efficiently prioritizing and addressing tasks to streamline project workflows.
- Collaborated with cross-functional teams to gather requirements, provide technical support, and implement enhancements to the Salesforce instance.
- Played a key role in user training and support activities, ensuring smooth adoption of Salesforce features and functionalities across the organization.

Key skills and characteristics

- Proficient in Salesforce development and administration, including Lightning Web Components, Apex, HTML, CSS, and JavaScript.
- Experience in managing Service Cloud cases and implementing process improvements.
- Strong problem-solving abilities and attention to detail for delivering high-quality solutions. Strong attention to detail and ability to produce high-quality work. Effective communication and collaboration skills to work with stakeholders and cross-functional teams.
