PROFESSIONAL EXPERIENCE

R Systems International Ltd. (Project: Mahindra & Mahindra Truck and Bus Division)

Process Management – | Feb 2022 – Aug 2025 |

- Managed end-to-end projects for IT operations and business processes in sales, service, and spare parts systems, ensuring successful deployment and smooth functioning of Dealer Management Systems (DMS) and backend applications.
- Coordinated cross-functional teams and external dealerships to deliver projects on time, overseeing requirement gathering, scope definition, and milestone tracking.
- Drove data integrity projects across sales, after-sales service, and spare parts modules, ensuring seamless integration between DMS, ERP, and reporting systems.
- Led critical incident resolution projects, applying structured problem-solving and maintaining stakeholder communication to minimize business impact.
- Executed workflow optimization projects by identifying inefficiencies, implementing process improvements, and measuring performance outcomes.
- Supported organizational change management initiatives, including training, communication, and adoption strategies to ensure project success.
- Delivered service improvement projects, achieving a 20% reduction in ticket backlog, strengthening SLA adherence and business continuity.
- Standardized IT processes across multi-location dealerships by planning and executing rollouts, system upgrades, and training programs.
- Provided project leadership in testing (UAT), system enhancements, and process automation, ensuring alignment with business requirements.
- Partnered with stakeholders to define KPIs, monitor project progress, and deliver continuous improvement initiatives.

Bastiwala Realty Pvt. Ltd.

Assistant Manager – Business Process Improvement & Operations | Jan 2019 – Jan 2022

- Supervised Customer Service Representatives to maintain high service standards.
- Analyzed and improved sales performance and market penetration strategies.
- Managed IT assets and collaborated with development teams for process standardization.
- Led change management activities, including training and transition support.
- Improved quality and customer satisfaction and defined target process and mapping stream eliminating waste and improving quality.

Randstad India Ltd. (Project: CRISIL Ltd.)

Process Associate | Nov 2013 – Dec 2018

- Handled end-to-end IT operations and business process management for financial rating systems, ensuring smooth data flow, process adherence, and SLA compliance.
- Provided application and process-level support to rating analysts and operations teams, addressing incidents, service requests, and coordinating issue resolutions with IT.
- Performed daily process activities such as data reconciliation, report validation, and maintaining process documentation to support operational accuracy and audit readiness.
- Collaborated with cross-functional teams to gather business requirements, supported UAT activities, and ensured timely implementation of process and system improvements.
- Initiated workflow automation and continuous process optimization, leveraging tools to enhance operational efficiency, reduce manual workload, and improve turnaround times.
