AMRITA UPADHYAY

PROFESSIONAL SUMMARY

Dynamic and results-driven professional with hands-on experience at Ingenious Tech World, specializing in AWS solutions and DevOps tools. Successfully designed CI/CD pipelines and automated infrastructure, enhancing deployment reliability. Certified SAP ABAP developer with strong problem-solving skills, committed to optimizing workflows and driving efficiency in software delivery.

SKILLS

- Software development: Python, Java, MySQL
- DevOps tools proficiency
- Experience with AWS solutions
- Certified SAP ABAP developer

EXPERIENCE

Ingenious Tech World - DevOps Intern, Bhubaneswar (Remote)

- Designed and implemented CI/CD pipelines using tools like Jenkins/GitHub Actions, enabling faster and more reliable software deployments.
- Automated infrastructure provisioning and monitoring on AWS/Azure with Terraform, Ansible, and Docker to improve scalability and reduce downtime.
- Collaborated with developers, testers, and operations teams to optimize workflows, troubleshoot issues, and ensure smooth software delivery.

Ingenious Tech World - AWS Master Intern, Bhubaneswar (Remote)

- Deployed and managed cloud infrastructure on **AWS services** like EC2, S3, RDS, and Lambda to ensure high availability and cost efficiency.
- Implemented **CI/CD pipelines** integrating AWS CodePipeline, CodeDeploy, and Jenkins for automated builds, testing, and deployments.
- Monitored and optimized system performance using **AWS CloudWatch** and automated scaling with Auto Scaling Groups and Load Balancers.

EME - SAP Intern, Bhubaneswar

- Assisted in developing and debugging **ABAP programs, reports, and forms** to support business requirements.
- Worked on **data dictionary objects** (tables, views, structures) and practiced enhancing existing SAP applications through modifications and exits.
