SUMMARY

Salesforce Certified Developer with hands-on experience in Apex, Lightning Web Components (LWC), Triggers, SOQL, and Flows. Built a real-world CRM application with automation, security, and scalable data models. Strong foundation in Java, OOP, and cloud-based application development.

TECHNICAL SKILLS

Salesforce: Apex, Triggers, LWC, SOQL, Flows, Data Modeling, Validation Rules, RBAC, Sales Cloud, Service Cloud

Programming: Java, SQL, JavaScript, HTML, CSS

Tools: Git, GitHub, Salesforce CLI, VS Code

Concepts: OOP, REST APIs, MVC

EXPERIENCE

Tata Consultancy Services (TCS) – SmartBridge

Salesforce Developer Trainee

Remote

Jul 2025 – Dec 2025

- Completed Salesforce-focused VILP program covering real-world CRM development and automation.
- Built hands-on experience with Apex, LWC, Triggers, SOQL, and Salesforce Flows.
- Worked on data modeling, validation rules, RBAC, and workflow automation scenarios.
- Gained exposure to Sales Cloud and Service Cloud implementations.

PROJECTS

REVAA – Real Estate Fractional Ownership CRM

2025

Salesforce CRM, Apex, LWC, Triggers

github.com/AnniiiK/Revaa

- Developed a Salesforce CRM enabling fractional real estate investment.
- Built Apex classes and Triggers for workflow automation and ownership tracking.
- Developed LWC-based UI for property search, bidding, and portfolio management.
- Implemented RBAC, validation rules, and automated flows for data integrity.

SUVIDHAA – Smart Service Management Platform

2026

Java, SQL, Web Development

- Developed a final-year group project to streamline access to essential services through a unified platform.
- Implemented backend logic using Java and integrated database operations using SQL.
- Designed user-friendly interfaces for service requests, tracking, and management.
- Collaborated in a team environment following structured development and project workflows.

EDUCATION

B.E. Computer Science

Prof. Ram Meghe Institute of Technology

Amravati
