

ANSHUMAN SINGH

Full Stack Developer

Jaipur, Rajasthan | 9897645801 | anshumansinghjob@gmail.com | [LinkedIn](#)

Summary

Experienced MERN Stack Developer and Front End Developer with a robust skill set encompassing HTML5, CSS, JavaScript, SQL, Python, and AngularJS. Demonstrated proficiency in developing user-friendly interfaces, implementing secure authentication mechanisms, and optimizing database queries for enhanced performance. Skilled in responsive design, interactive features, and staying abreast of emerging trends in frontend development. Currently pursuing a Bachelor's degree in Computer Science, with a commitment to continuous learning and professional growth.

Skills

HTML5, CSS, JavaScript, MySQL, Python, Tailwind CSS, C++,

Experience

Software Technology Parks of India

Jaipur, Rajasthan

MERN Stack Developer

08/2023 - 09/2023

- Developed a user-friendly interface for customers to browse menus, place orders, and track delivery status, resulting in increased user engagement and satisfaction.
- Implemented secure authentication and authorization mechanisms, ensuring that only authorized users can access sensitive information and perform actions such as placing orders and managing their accounts.
- Integrated payment gateways such as Stripe or PayPal to facilitate seamless online payments, providing customers with a convenient and secure checkout experience.
- Utilized geolocation services to enable users to input their address or automatically detect their location for accurate delivery scheduling and estimation.
- Optimized database queries and backend processes to handle high volumes of concurrent users and orders, ensuring smooth performance during peak hours.

BIT TO BYTE ROBOTICS

Kota, Rajasthan

Front End Developer

07/2022 - 09/2022

- Developing responsive and user-friendly web interfaces using HTML, CSS, and JavaScript.
- Implementing interactive features and animations to enhance user engagement and experience.
- Collaborating with designers and backend developers to integrate frontend components seamlessly.
- Optimizing website performance for speed and scalability.
- Keeping up-to-date with the latest frontend technologies and best practices to ensure cutting-edge development.

Education

Poornima College of Engineering

Bachelor in Computer Science

09/2020 - Present

Courses & Certificates

Mastering Microsoft Power BI || Build an App in React || Learn to Code in Python3: Programming beginner to Advance

Projects

Food Delivery Websites

Contributed as a member of a 5-person team to develop a food delivery project using MERN stack technology during my internship at Software Technology Parks of India.

ArtBlock Community

Contributed to the development of the ArtBlock Community project during my internship at Bit to Byte Robotics, utilizing Angular with Tailwind CSS technology.
