

GURUVUGARI KALI ARAVIND KUMAR

SALESFORCE DEVELOPER

PROFESSIONAL SUMMARY

Enthusiastic Salesforce Developer with a track record of success and 6X Salesforce Certifications, eager to make a significant contribution to team success. With a strong work ethic, acute attention to detail, and excellent organizational skills, I possess a clear understanding of Development principles and practices. I thrive on utilizing a creative approach to problem-solving, consistently finding innovative solutions to complex challenges. Through effective time management, I adeptly handle multiple tasks on a daily basis, ensuring timely and efficient project delivery. Collaboration is a cornerstone of my work style, and I excel both as a team player and as an individual contributor.

Experience

June 2022 - Present

PwC I Associate 2

- As an accomplished Salesforce Developer, I achieved a promotion to Experienced Associate in June 2022, acknowledging my expertise and contributions. With a focus on Health Cloud Projects, I excel in Lightning Web Components (LWC), APEX, SOQL, and Custom Metadatatypes, delivering robust solutions.
- Proficient in Salesforce administration, I configure the platform, create customer community portals, and prioritize continuous
- improvement through collaborative problem-solving.
- Experienced in Agile Methodologies, I ensure efficient development using tools like Jira for streamlined project management.
- Taking ownership of release cycles, I facilitate seamless implementation and deployment while identifying areas for improvement, actively participating in code reviews to maintain quality standards.

September 2021 - June 2022

PwC I Associate

- Starting my professional journey as a Salesforce Developer at PwC, I acquired extensive expertise in Salesforce development and administration. Proficient in Flows, Process Builder, Workflows, Platform Events and validation rules.
- I implemented various components like custom objects, fields, layouts, record types, and tabs. In addition, I excelled in SFDC Administrative tasks, including security access management, profile creation, layout customization, email services setup, and dashboard creation.
- My proficiency in JavaScript, HTML, XML, and CSS enhanced the functionality of Salesforce solutions. I also specialized in Salesforce Community Cloud, Sales Cloud, and Health Cloud, effectively integrating and supporting diverse business processes.
- With skills in Lightning Components, APEX, Visualforce, and more, I consistently delivered optimal front-end and back-end solutions to meet development requirements.

- Completed training in the Salesforce Platform Development out of personal interest, gaining hands-on experience in Salesforce development.

PROJECTS

- Started my Project work journey with Code fixes, aligning the code to be match the coding standards and writing the test classes to improve the code coverage.
- Completed a Project that needed the facelift and involved only lightning components(Aura) and custom metadata types single handedly in just two months. Later worked on Enhancements of the existing system and the Hotfixes.
- Worked on a Project (Involved Community builder, LWC, Apex and Configuration) from the beginning till the MVP for 9 months before it got delivered to client.
- Worked on Two Projects(one in LWC and the other in Aura) paralelly as a only team member that knows about the whole functionality and Architecture of either of the projects by splitting my time in half and Delivered my best in both.
