SUMMARY

Full-Stack MERN Developer skilled in **JavaScript, React.js, Node.js, Express.js, and MongoDB**. Experienced in building responsive, production-ready applications and integrating AI-driven solutions. Strong foundation in scalable software engineering and problem-solving. Eager to contribute to high-quality, real-world applications.

TECHNICAL SKILLS

- **Languages:** TypeScript, JavaScript (ES6+), HTML5, CSS3, C
- **Frameworks & Libraries:** React.js, Next.js, Redux, Node.js, Express.js, Tailwind CSS
- **Databases:** MongoDB, MySQL
- **Tools & Platforms:** Git, GitHub, Postman, VS Code, Vercel, Render, NPM, Figma
- **Core Skills:** MERN Stack, RESTful APIs, JWT Authentication, WebSocket, Third-Party Integrations (Stripe, Auth0, Gemini API), OOP, DSA, Debugging, Clean Code, Scalable Web Apps, Team Collaboration

PROJECTS

Quizzzy – AI-Powered Quiz Generator 2025 – Ongoing [GitHub](#) *MERN, Redux Toolkit, REST API, Tailwind CSS, Google Gemini AI, Cron Jobs, React.lazy*

- Built a full-stack platform for teachers to auto-generate assessments and students to take AI-evaluated quizzes.
- Integrated **Google Gemini AI** for dynamic question generation and automated grading of subjective answers.
- Implemented **role-based system and Cron Job automation**, ensuring scalable assessment management and efficient grading workflow.
- Delivered a responsive, high-performance UI using Redux Toolkit and **React.lazy** for optimized load times and smooth user experience.

MernEats – Food Ordering Platform 2025 [Live Project](#) | [GitHub](#) *MERN, Redux, TypeScript, REST API, JWT/Auth0, Stripe, Tailwind CSS, React Query, Cloudinary*

- Developed a full-stack food ordering platform for browsing restaurants, viewing menus, managing carts, and placing orders.
- Implemented **JWT/Auth0 authentication with role-based access** and integrated **Stripe** for secure payments.
- Built a responsive, high-performance frontend with React, Tailwind CSS, and **React Query** for efficient server-state and real-time updates.
- Designed RESTful APIs with Node.js, Express, and MongoDB (Mongoose), deployed on **Render (backend)** and **Netlify (frontend)**.

Gemini Clone – AI Chatbot 2025 [Live Project](#) | [GitHub](#) *React.js, Gemini API, Context API*

- Developed a simple AI chatbot UI while learning React fundamentals.
- Integrated **Gemini API** for dynamic responses with realistic typing animation.
- Built a responsive frontend using **Context API** for state management and smooth UX.

EDUCATION

Bachelor of Computer Applications (BCA)	Poornima University, Jaipur (Rajasthan)	May 2024
--	--	-----------------

CERTIFICATIONS & TRAINING

AccioJob – Full Stack Development (MERN)	Sept 2024 – Apr 2025
---	-----------------------------

- Completed an intensive 8-month program with 1000+ hours of coding and project work.
- Built full-stack projects including the **MernEats Food Delivery App** and **AI-Powered Quizzzy Platform**.
- Gained experience with **REST APIs, JWT auth, Git/GitHub, Agile practices**, and deployment on Render/Vercel.
- Collaborated in sprint teams and participated in **mock interviews** to enhance technical and communication skills.
