WORK EXPERIENCE

Salesforce Developer HCL Technologies

01/2022 - 09/2023

Chennai, India

Achievements/Tasks

- Effectively managed profiles, roles, and user permissions, enhancing data security and compliance.
- Enhanced real-time reporting capabilities, enabling sales managers to track team performance and identify opportunities for improvement quickly.
- Designed screen flows to capture email addresses and automate follow-up communications, enhancing customer engagement and reducing manual follow-up tasks.
- Employed Salesforce Object Query Language (SOQL) and Salesforce Object Search Language (SOSL) to efficiently retrieve and manipulate large datasets, ensuring high performance and accuracy in data handling.
- Developed Apex triggers to enforce complex business rules and ensure data integrity, such as automating task creation upon lead conversion and updating related records based on specific criteria.
- Managed basic integrations with external systems, using REST and SOAP APIs, facilitating data exchange and synchronization across systems with guidance and support.
- Developed custom LWCs using HTML, CSS, and JavaScript that improved user adoption and satisfaction by providing a more intuitive and efficient interface.

PERSONAL PROJECTS

Restaurant E-Management System in Salesforce

- Developed an application on Salesforce Platform that will automate the order placement, order tracking and inventory management in a restaurant. The application increases customer satisfaction level by decreasing the waiting time and facilitating faster delivery of the placed orders
