PROFESSIONAL SUMMARY

Data Analyst with **2+ years** driving business efficiency through **SQL**, **Python**, and **BI** tools. Automated reporting processes using **Power BI** and **Advanced Excel**, resulting in documented time savings of **3-4 hours of manual work daily** for stakeholders. Proven ability to translate complex data analysis into **actionable strategic recommendations** that optimize operations.

TECHNICAL SKILLS

PROGRAMMING/DATABASES: SQL, Python (Pandas, NumPy, Scikit-learn), ETL Process, Power Query

VISUALIZATION/BI: Tableau, Power BI, Looker Studio, MS Advanced Excel

CLOUD & TOOLS: AWS, Power Pivot, Selenium, BeautifulSoup, GitHub

PROFESSIONAL EXPERIENCE

Data Analyst – Y Creators Media LLP | Vijayawada, India

May 2023–Present

- **Automated** weekly **data reporting** by implementing **Advanced Excel functions (VLOOKUP, Pivot Tables)**, **reducing manual effort** and generation time by approximately **2 hours per report**.
 - **Applied** advanced **statistical techniques**, including **factor analysis**, to interpret complex datasets, **identifying core trends** that directly informed and improved **strategic business adjustments**.
 - **Designed and deployed live, interactive dashboards** using **Tableau** and **Power BI** for stakeholders to monitor **live metrics**, complementing static reports for comprehensive strategic oversight
 - **Enhanced data quality** by optimizing data collection methodologies and leveraging **SQL** and **Python** for processing large, complex datasets, resulting in more accurate and reliable **data analyses**.
-

DATA ANALYTICS PROJECTS

HR Analytics Dashboard Implementation [Tools Used: Power BI, Power Query, Excel]

- **Process Automation:** Designed and implemented a comprehensive **Power BI dashboard** to automate daily employee **data tracking** for core metrics (work hours, performance, attendance).
- **Efficiency Metric:** **Achieved significant efficiency improvements, saving the HR department 3-4 hours of manual work daily** through automated visualizations and processes.

Walmart Sales Analysis for Profit Optimization [Tools Used: Tableau]

- **Profit Analysis:** Created a **Tableau story** to specifically analyze the impact of **discounts on order profitability** across a large sales dataset.
- **Actionable Insight:** Provided clear **data visualization** for stakeholders, highlighting specific conditions where discounts led to a net loss and informing **pricing strategy** recommendations.

Amazon Rain Forest Fires Data Analysis [Tools Used: Pandas, Matplotlib, Seaborn]

- **Data Science Application:** Conducted in-depth **data analysis** using **Python libraries** in **Jupyter Notebook** to examine fire data trends.
- **Strategic Goal:** Derived key insights aimed at **enhancing fire management strategies** and supporting preservation efforts to aid **climate change mitigation**.

EDUCATION & CERTIFICATIONS

RAJIV GANDHI UNIVERSITY OF KNOWLEDGE TECHNOLOGIES - RGUKT

Bachelor of Technology - Electronics and Communication (Jun 2019 - Apr 2023)

CGPA: 9.51

- **Google Data Analytics Specialization** with GOOGLE (Dec 2023)
- **Five-Star Badge in SQL** on HACKERRANK (Dec 2024)
- **AWS Academy Graduate** - AWS Academy Data Analytics with AICTE (May 2022)
