CAREER OBJECTIVES

Leveraging 3 years 8 months of proven expertise in Salesforce Administration and Development, specializing in crafting scalable solutions, streamlining processes through automation, and optimizing systems via Apex, Lightning Web Components, and integrations, to drive strategic innovation and maximize operational efficiency as a Salesforce Developer/Administrator.

WORKING EXPERIENCE

SALESFORCE DEVELOPER

[HELSON SOFTWARE SOLUTIONS PVT LTD, HYDERABAD.] [June-2024 to Present]

- Designed and developed custom Salesforce solutions utilizing Apex, Visualforce, and Lightning Web Components (LWC) to meet specific business requirements.
- Integrated Salesforce with external systems through REST/SOAP APIs and middleware tools, ensuring seamless data synchronization.
- Implemented automation of business processes using Salesforce Flow, Process Builder, and Workflow Rules, resulting in a 30% improvement in operational efficiency.
- Conducted thorough code reviews, unit testing, and deployments to ensure high-quality releases.
- Provided technical support, resolved system issues, and optimized platform performance to enhance overall user experience.

SALESFORCE ADMINISTRATOR

[HELSON SOFTWARE SOLUTIONS PVT LTD, HYDERABAD.] [Nov-2021 to June-2024]

- Managed user roles, security settings, and permission sets to ensure data security and compliance with organizational policies.
- Developed custom reports, dashboards, and analytics to support data-driven decision-making across various departments.
- Automated workflows and processes using Salesforce Flow and Process Builder, achieving a 25% reduction in manual effort.
- Conducted data migration, cleansing, and deduplication activities to maintain high data quality and integrity.
- Delivered end-user training and documentation, resulting in a 20% increase in Salesforce adoption and user satisfaction.
