- Ability to work Independent and as a part of team

CERTIFICATIONS:

- Salesforce Certified Platform Developer – 1
- Salesforce Certified Administrator

PROJECTS:

- **Kult App:** Kult App is a beauty product seller e-Commerce Platform exploring to automate and make their business processes efficient by implementing Salesforce Service Cloud to cater to their customer's queries over various channels. I worked in the shoes of a senior developer, helping design solutions by understanding the business requirements and translating them into technical solutions. Below are some key roles and responsibilities I undertook on this project.
 - Led a team of 2 junior developers and assigned them tasks.
 - Communicated with the client on a regular basis to demonstrate the progress and take feedback on the developed system.
 - Wrote Callout and Web Service API classes to ensure real time data transfer between Kult's internal OMS tool.
 - Designed and Implemented Einstein chatbot for their business and helped their IT team to implement Service SDK for chat implementation in their mobile app.
 - Enabled and Configured Entitlement and Milestones to ensure best customer service.
- **Field Service Module:** We at Util Labs understood the need in various industries to track and manage their field service agent's work so we designed and developed field service module from scratch and made modifications according to the needs of customers.
 - This Module is used by the field service agent to plan and view their monthly beat

- plan, schedule their daily visits, check in and check out at a customer's site and upload various documents as required.
 - We made this product dynamic with the ability to turn Approval Process on/off based on client's requirements.
 - Field visit model also offers automatic distance calculation for better accuracy in travel expenses reimbursement.
- United World Academy: UWA is an educational institution working in K-12 domain. Their need was to implement Sales Cloud to speed up and automate their Lead to Cash Cycle of students.
 - Worked as a Senior Developer on the project and helped the team to better understand the business logic and translate it into technical solutions.
 - Worked on Lead Capture module to capture leads from FB and Google Forms.
 - Setup of Products and Pricebook for various fees.
 - Wrote and Scheduled batches to create reminder tasks for CAOs to follow up with the parents.
- Draup: Draup is an organization which helps various Organizations in various industry verticals to make more informed decisions in Hiring new Resources and Upskilling existing Resources with AI driven data backed points and suggestions.
 - Working as a support engineer for Draup
 - Helped them in making new enhancements in their existing built system.
- Axplorify Travels: It was a startup in the travel domain providing one stop solutions to all the travelers by providing all travel related solution and consulting on one platform. Their requirement was to implement Sales Cloud to effectively manage their leads, follow ups and ensure higher conversion.
 - Implemented simple Lead to Cash flow as per customer's requirement.
 - Implemented Web-To-Lead and Lead Capture to bring Leads into the salesforce system from their FB and Google Forms.
 - Created Quotation PDF and implemented automation logics to send Quotation on click of a button.

EXTRA CURRICULAR ACTIVITIES:

- Organizer for weekly Fun Friday activities for Utilitarian Labs ensuring team building by incorporating various team building exercises.
- Organizing Committee head of **RUBAROO-2017** annual fest of SRM University
- Was in Organizing Committee of **JHANKAAR-2016** a cultural fest of EEE and ECE departments of SRM University.
- Was in Organizing Committee of **VAJRA-2015** a national level sports meet of SRM University.
- Participated in technical fest **ELECTRA-2015** and won second prize in Exhibition
