Objective :

Highly motivated and certified Salesforce professional with 3+ years of experience in technical support and Salesforce development. Skilled in Sales Cloud, Service Cloud, B2B Commerce Cloud, Health Cloud, and CPQ. Proficient in managing and delivering high-quality projects on time. Seeking a challenging role that leverages my technical expertise and project management skills, with additional experience in testing and ensuring seamless implementation of Salesforce solutions.

Professional Experience:

Salesforce Developer -One Algorithm IT Solutions Pvt Limited, [4th Jan 2021] - Present

- Developed and maintained Salesforce solutions for various clients, focusing on Sales Cloud, Service Cloud, B2B Commerce Cloud, Health Cloud, and CPQ.
- Currently working on the development of a Salesforce Contract Management System utilizing Sales Cloud CPQ.
- Created and executed test plans, test cases, and test scripts to ensure Salesforce solutions met business requirements.
- Collaborated with cross-functional teams, including project managers, business analysts, and quality assurance engineers to deliver high-quality projects on time.
- Implemented best practices for Salesforce development, including version control, continuous integration, and continuous deployment.
- Stayed up-to-date with the latest Salesforce releases, features, and best practices, applying this knowledge to improve solutions and client satisfaction.

Project Highlights:

CPQ Project : Salesforce Contract Management System [Nov 2023 - Till Now]

Project Description: Currently working in the development of a comprehensive contract

management system on Salesforce utilizing Sales Cloud CPQ. The system automates the contract lifecycle, from creation to renewal, streamlining processes and improving accuracy. The project aims to:

- Automate contract creation, approval, and renewal processes
- Integrate with third-party systems for seamless data exchange
- Provide real-time visibility into contract status and performance
- Ensure compliance with regulatory requirements

Responsibilities:

- Customizing Sales Cloud CPQ to meet client requirements
- Integrating with third-party systems using APIs and integration tools
- Designing and implementing approval processes and document generation using Visualforce and Lightning Components
- Developing Apex classes and triggers for custom logic and automation
- Conducting unit testing, integration testing, and user acceptance testing (UAT) to ensure high-quality deliverables
- Collaborating with cross-functional teams, including project managers, business analysts, and quality assurance engineers.

Health Cloud Project: Patient Engagement Portal[Mar 2023-Nov 2023]

Project Description: Developed a Patient Engagement Portal for a healthcare provider leveraging Salesforce Health Cloud. Designed a secure and user-friendly portal for patients to access their medical records, schedule appointments, and communicate with healthcare providers. Implemented HL7 integration to synchronize patient health data between Salesforce Health Cloud and external EMR systems.

● **Role:** Salesforce Developer

● **Responsibilities:** Customized Salesforce Health Cloud, configured sharing rules and data access controls, implemented Lightning Components, integrated with HL7 interfaces. Conducted unit testing, integration testing and user acceptance testing (UAT) to ensure high-quality deliverables

● **Technologies/Tools Used:** Salesforce Health Cloud, HL7 Integration, Lightning Components, HIPAA Compliance.

B2B Commerce Cloud Project: B2B E-commerce Platform Migration[April 2022-Jan 2023]

Project Description: Working in the migration of a manufacturing company's B2B e-commerce platform to Salesforce B2B Commerce Cloud. Collaborated with stakeholders to gather requirements and design a scalable and customizable e-commerce solution. Implemented custom storefronts, product catalogs, pricing models, and order management workflows to support complex B2B buying processes.

- **Role:** Salesforce Developer
- **Responsibilities:** Customized Salesforce B2B Commerce Cloud storefront templates, integrated with external systems, implemented custom price books and discount schedules.
- **Technologies/Tools Used:** Salesforce B2B Commerce Cloud, HTML, CSS, JavaScript, ERP Integration, Payment Gateways.

Service Cloud Project: Service Case Automation Solution[Nov 2021-April 2022]

● **Project Description:** Designed and implemented a Service Case Automation Solution for a telecommunications company. Integrated Salesforce Service Cloud with telephony systems to enable automatic case creation and routing based on caller IVR selections. Implemented custom case management processes, escalation rules, and SLA monitoring to ensure timely resolution of customer issues.

- **Role:** Salesforce Developer
- **Responsibilities:** Configured Service Cloud console, developed Apex triggers and classes, integrated with CTI systems, implemented Lightning Flow.
- **Technologies/Tools Used:** Salesforce Service Cloud, Apex, Lightning Flow, CTI Integration, Service Console.

Sales Cloud Project: Sales Optimization Dashboard[Jan 2021-Nov 2021]

Project Description : Developed a comprehensive Sales Optimization Dashboard for a manufacturing client. Integrated Salesforce Sales Cloud with external ERP systems to streamline sales processes. Implemented custom reports and dashboards to provide real-time insights into sales performance, pipeline health, and revenue forecasts. Utilized Salesforce Einstein Analytics for predictive analysis to identify potential sales opportunities and prioritize leads.

- **Role:** Salesforce Developer
- **Responsibilities:** Customized Salesforce Sales Cloud, integrated third-party applications, designed and implemented custom reports and dashboards, utilized Salesforce Einstein Analytics.
- **Technologies/Tools Used:** Salesforce Sales Cloud, Apex, Visualforce, Salesforce Lightning, Salesforce Einstein Analytics, ERP Integration.

Technical Support Specialist -WINDS E Pvt Ltd, [10th April 2019] - [31st Dec 2020]

- Resolved technical issues related to Salesforce Sales Cloud, Service Cloud, and Marketing Cloud
- Troubleshoot and resolved issues with Salesforce Lightning Components, Visualforce, and Apex
- Assisted clients and customers with Salesforce data management, data validation, and data security
- Provided guidance on Salesforce best practices, optimization, and performance tuning
- Utilized Salesforce tools and technologies, such as Salesforce CLI, Apex Testing, and Lightning Testing
