- Time Management & Deadline-Oriented
- Collaborative Team Player
- Creativity in UI/UX Design

OBJECTIVE

Final-year BCA student skilled in Java, C++, MERN stack, Interactive frontend Development and PHP, with hands-on experience in web and desktop applications. Seeking an entry-level role to apply my skills in a dynamic IT environment.

PROJECTS

- **Hostel Management System**
- Web-based: Developed using PHP with MVC architecture, incorporating room management, student tracking, and payment processing.
- Desktop App: Created a desktop app with Java for efficient hostel data processing, reducing admin workload by 30%
- **File Sharing System on Cloud**
- Developed a secure file-sharing platform using React and Firebase, enabling users to upload, share, and manage files effortlessly.
- Improved system performance for faster uploads by 20%.
- **E-commerce Website Prototype**
- Built a responsive e-commerce website with HTML, CSS, and JavaScript, achieving a clean, user-centric interface.
- **Blogger (Wikipedia-like Platform)**
- Designed and implemented a dynamic blogging system for creating, managing, and editing posts with real-time updates.
- **40+ Mini Projects**
- Hands-on experience with frontend and backend projects across different technologies, focusing on both functionality and user experience.

TECHNICAL SKILLS

- **Languages:** Java, C++, JavaScript, Python, PHP
- **Web Technologies:** HTML, CSS, Tailwind CSS, SQL, MERN Stack (MongoDB, Express, React, Node.js)
- **Frameworks/Libraries:** Three.js, GSAP, Bootstrap, jQuery, Redux, Axios
- **Database:** MySQL, MongoDB
- **Tools:** Git & GitHub, Firebase, XAMPP, phpMyAdmin
- **Other Skills:** AI prompt engineering, SEO, content writing, creative problem-solving, strong communication skills
