

DEVANSH GOYAL

M.No.: +91 7878412624

Email: devanshgoyal04102001@gmail.com

EDUCATION

- **B.Tech.** (Electronics and Communications Engineering), 2024
(Engineering College Ajmer, CGPA: 7.87)
- **Senior Secondary** (12th), CBSE, Percentage-84%
- **Secondary** (10th), CBSE, CGPA-9.2

EXPERIENCE

- **Machine Learning Intern**
 - Atharvo India Pvt. Limited
 - August 2024 – September 2024
 - Performed basic data analysis using python libraries.
 - Learnt various machine learning algorithms and make projects.

PROJECTS

- **Handwritten Digit Recognition**

Applied K Nearest Neighbors Algorithm in recognizing handwritten digits (0-9) from the MNIST dataset. Developed a system from scratch which includes a machine to understand and classify the images of handwritten digits as 10 digits (0–9). Accuracy of the model was around 98%. Tech Stack - Python, ML(KNN), MNIST Database, Jupyter Notebook.
- **Face Recognition System**

Applied KNN classification algorithm in face recognition using OpenCV and HaarCascades CNN. Model for frontal face detection. Tech Stack - Python, ML(KNN), OpenCV, Jupyter Notebook.
- **Dominant Color Extraction**

Applied K Means Clustering Unsupervised Algorithm in segmenting an image into set of K Dominant Colors. Extracted the K Dominant Colors from the image and then re-colored it using those K Colors. Tech Stack Python, ML(K-Means), OpenCV, Jupyter Notebook.
- **Wikipedia Downloader**

Used Http get request to access wikipedia.org to fetch raw html data about any keyword, which is eventually parsed and cleaned to get the output information and images available on Wikipedia for the given keyword.
Tech Stack - Java, jsoup, IntelliJ.
- **Top Frequency Keyword Analyzer**

Read and get the frequency of occurrence of each word in a text file, multi threading for multiple files.
Tech Stack – Java, IntelliJ..
- **Bollywood Information Downloader [Music Crawler]**

Developed a platform on which all the recent mp3 songs can be fetched. Worked on crawling based solution, Implemented back-end using Java, Postgres as Database. Crawler is able to download 25000+ latest songs data within 30 minutes using multithreading.

TECHNICAL SKILLS

- **Languages:** C/C++, Python, JAVA, HTML
- Machine Learning.
- **Databases:** PostgreSQL

ADDITIONAL EXPERIENCE

- Solved 350+ problems on Codechef, Hackerrank, Leetcode and SPOJ.

COURSES

- Ongoing programming course from Coding Club India (C/C++, DSA, Python and Machine learning, JAVA, etc.)
