Objective

Results-driven Salesforce Developer with **3.5 years of hands-on experience** in designing, developing, and deploying scalable Salesforce solutions across Sales Cloud, Service Cloud, and integrations. Adept at building complex Flows, Lightning Web Components (LWC), and automations to optimize business processes. Certified Salesforce Associate, Salesforce AI Associate, and Salesforce AI Specialist, with a growing focus on leveraging Salesforce's AI and automation capabilities to deliver intelligent customer experiences.

Professional Experience

Salesforce Developer | Antrazal Solutions Pvt. Ltd.

Feb 2024 – Present | Jaipur, Rajasthan

Key Responsibilities & Contributions across multiple client projects:

- **AWC Internal Project:** Implemented a full **Employee Management System** (daily working hours, onboarding system, HR interview scheduling) using **LWC** and custom schema. Developed automated email notifications and generated **Salary Slips** via **Visualforce (VF) Pages**.
- **Inovia Multiple Projects:**
 - **ACRC (Surrogacy):** Customized solutions using **LWC, VF Page, basic Admin, Permission Sets, Custom Permissions, Sharing Rules, and Sharing Settings**.
 - **NSC:** Developed dynamic front-end features using **LWC, VF Pages, and Charts.js**.
 - **Grove Insurance:** Maintained and enhanced features using **VF Pages**.
- **FCS Blue Projects:**
 - **UWGT (Gift Processing/Donations):** Handled documentation and implemented complex **Apex, LWC, VF Pages, and Batch Classes** for funds processing from different sources.
 - **Clear Water (Insurance):** Developed back-end logic using **Triggers, Flows, LWC, Batch, and Scheduled Jobs**.
 - **Vastian:** Gained foundational knowledge and basic setup experience in **CPQ** (Product, Pricing, Quote, Quote Line).
 - **Salesforce Internal:** Gained exposure to **Omnistudio** (Flex cards, IP, Omniscrypt, Data Raptors) and **Marketing Cloud** (Email, SMS, SSJS, Ampscript).
- **Highlighted Integration (DRG Project):** Implemented complex **integrations** using **Callouts and Webhooks** for critical business processes:
 - Integrated Salesforce with **Stripe API** for automated payment processing.

- Enabled smooth synchronization with **Keap CRM** for marketing automation.
- Built robust data flows with **Order Desk** for real-time order tracking.
- Implemented affiliate tracking and revenue data synchronization with **Everflow**.

Salesforce Developer | iReact Cloud Consultant Pvt. Ltd.

Oct 2022 – Jan 2024 | Ajmer, Rajasthan

Contributed to various internal and external client projects:

- **Development & Optimization:** Designed, developed, and deployed custom applications across Sales Cloud and Service Cloud. Optimized **Apex code and SOQL queries** to adhere to governor limits and improve performance.
- **Wipro Internal:** Focused on development and maintenance using **LWC, Aura, VF Pages**, and extensive **bug fixing**, along with basic **Salesforce Admin Work**.
- **Infosys Internal:** Built core automation and logic utilizing **LWC, Trigger, Apex, Batch Class, Scheduled Jobs, Process Builder, and Workflow**.
- **Akash Institute Project:** Designed and implemented complex data processing using **Flows, Queueable, Batch Classes, Triggers, and ETL** processes.
- **Braining Camp:** Developed custom user interfaces with **LWC** and managed data structures through **Schema Building**.
