Responsibilities:

- Worked on Salesforce Admin customization, including setting up record types, actions, and global actions.
- Designed and implemented Flows, Triggers, and Apex to automate business processes.
- Created and executed Apex test classes to maintain high code quality and meet deployment standards.
- Designed Email Templates and configured Email Alerts for automated communication and notifications.
- Implemented an Approval Process to streamline vendor requests and ensure compliance with company policies.

Employment History

Salesforce Administrator | HyphenX Solutions. | Present

As a Salesforce Administrator, my role is to ensure that we provide the correct solutions to our customers, manage client issues and feedback, and actively contribute to the organization's growth initiatives. I am responsible for managing the team, resolving their technical issues, and ensuring smooth system operations to meet business objectives effectively.

UI/UX Designer | Anktech Software Pvt Ltd. | April 2021 to March 2024

As a UI/UX Designer, my role is to ensure that we deliver user-centered design solutions that meet our customers' needs. I manage client feedback and address any issues to continuously improve the user experience. I am also involved in the organization's growth initiatives, working closely with cross-functional teams to align design strategies with business objectives. Additionally, I lead the design team, providing guidance and resolving any technical challenges they face during the design process.

Education & Certifications

Bachelor of Technology | Suresh Gyan Vihar University | 2017 - 2021

Jaipur, India.
