SKILLS

- CRM:** Salesforce
- Programming**
languages: C, C++, Java, Python.
- Web Designing**
Languages: HTML, CSS, JS, PHP, React, Node
- Operating Systems:**
Windows, Linux
- MS Office:** Word, Excel, Power point, Access
- Database:** SQL, SQLite, MySQL, MongoDB
- Mobile App**
Development: Android
- Self-taught **SAP**

PROFILE

I am an enthusiastic developer specializing in Salesforce and full-stack development. With a strong foundation in programming and a passion for tackling challenges, I excel in delivering efficient tech solutions. My experiences include Salesforce development and MERN stack projects, and I thrive in collaborative environments.

WORK EXPERIENCE

KVP Business Solutions, Mangalore India

Salesforce Developer Trainee FEB 2025 - AUG 2025

- Requirements Gathering & Data Modeling** - Gathering business and technical requirements, analyze existing **workflows**, and design optimized data models using **standard** and **custom** objects, relationships, and fields.
- Security & Access Management** - Implement security using **Profiles**, **Permission Sets**, **Role Hierarchies**, and **OWD**, ensuring compliance with the principle of least privilege.
- Process Automation** - Utilize **Flows**, **Process Builder**, and **Validation Rules** to automate operations efficiently before implementing Apex development.
- Apex Development** - Build scalable, bulkified **Apex** classes, **triggers**, and **batch jobs** with proper governor limit handling, exception management, and high test coverage.
- User Interface Development** - Develop responsive, modular, and reusable **Lightning Web Components (LWC)** with **Salesforce Lightning Design System (SLDS)** for an enhanced user experience.
- Experience Cloud Implementation** - Configure and customize **Experience Sites** for external users, enabling secure access, seamless navigation, and improved customer engagement.
- Reports, Dashboards & Analytics** - Design and optimize **reports**, **charts**, and **dashboards** to deliver real-time analytics and management-level performance metrics.
- Testing & Quality Assurance** - Ensure code quality through **unit tests**, **integration tests** with maintaining at least 75% test coverage for all Apex components.
- Performance Optimization & Troubleshooting** - Optimize **SOQL** and **SOSL queries**, try-catch mechanisms, and asynchronous processes (**Queueable**, **Batch Apex**, **Future methods**), while identifying and resolving root causes of errors.
- Client Collaboration & Salesforce Support** - Work directly with clients to resolve raised issues, communicate technical solutions effectively, and collaborate with Salesforce Support to handle escalated or complex platform issues.

PERSONAL DETAILS

DOB : 30 AUG 2001

Nationality : Indian

Marital Status : Single

PROJECTS

CourseHub - E-Learning Platform
2024

- MERN Stack Website for E-Learners

Quick Rent - Rental Application
2022

- Android App for buyers and sellers

CodeLab Systems , Mangalore India

MERN Stack Developer Intern MAY 2024 - AUG 2024

- Full-Stack Application Development** - Design, develop, and implement scalable web applications using **MongoDB, Express.js, React.js, and Node.js (MERN)** aligned with business goals.
- Frontend Development (React.js)** - Building responsive, dynamic, and interactive user interfaces using **React.js, Material-UI**, and reusable components for enhanced usability and performance.
- Backend Development (Node.js & Express.js)** - Develop robust RESTful APIs and server-side logic using **Express.js** and **Node.js** with proper routing, and authentication mechanisms.
- Database Design & Management (MongoDB)** - Model, design, and manage NoSQL databases with efficient schema design, indexing.
- Integration & API Communication** - Integrate third-party APIs, handle JSON data interchange, and ensure client-server communication through secure endpoints and asynchronous handling (**Axios/Fetch**).
- Testing** - Perform API testing using Postman, conduct integration testing to validate workflows.
- Project Implementation & Collaboration** - Developed both mini and major projects applying full-stack development concepts; collaborated with team members to troubleshoot, optimize and user-friendly web solutions.

EDUCATION

Master of Computer Applications 2022-2024
St. Joseph Engineering College, Mangalore India
CGPA: 9.5 / 10

Bachelor of Computer Applications 2019-2022
Alva's College | Mangalore University, Mangalore India
CGPA: 9.4 / 10
