PROJECTS

Business Analysis for Food2Go :

- Used excel to help a food technology startup analyze its marketing campaigns, popularity of different cuisines, restaurants with poor customer support and several other business problems.

Human Resources Dashboard

- Used different data visualization tools in excel to build a human resources dashboard and analyze the performance of different employees of an organization.

Analysis of IPL database using sql

- In this project I used different sql functions to analyze the ball by ball data for all the IPL cricket matches played between 2008 and 2020.
