PROFESSIONAL EXPERIENCE:

Certification Management (Mini Project)

MAR 2023–APR 2023

Role: Salesforce Developer

Project Description :-

The Certification Management app is an application which was able to keep information on vouchers, it also tracks who a voucher is getting issued to. Over this, validations are placed so that an employee does not get more than 1 voucher at a time. If an employee does not complete a Certification in a set amount of time, then the app will send reminders. It also provides effective reporting.

Platforms: Force.com, Salesforce Lightning

Responsibilities:

- Creation of Custom objects and fields along and their relationships.
- Creation of Users, Profiles, Workflows, Email Alerts, Process Builder, Flows.
- Developing a Custom app on the Salesforce platform.
- Creation of Report Types, Reports and Dashboards.
- Managing Permissions.
- Worked with Apex Triggers, Apex classes and SOQL.

Stellantis

MAY 2023–OCT2023

Role: Salesforce Developer

Project Description :-

In Stellantis I have worked on DMS Vehicle Management System. In this, Customized screens are developed for the clients to handle vehicle information and customers data and all the information related to finance and payments and store all the documents related to agreements in a centralized location.

Platforms: Force.com, Salesforce Lightning

Responsibilities:

- Creation of Custom objects and fields along with developing relationships between them.
- Creation of List Views.
- Managing all aspects of Users, Roles, Profiles and Permissions.
- Creation of reports and dashboards.
- Worked with Apex trigger and Apex Class.
