Professional Summary:

Proficient in Salesforce customization, automation, Apex development, and component-side development with a focus on Sales Cloud. With 2.5 years of experience in administration and development, I bring expertise in Apex, LWC, AURA, automation tools, and UI customization. Proven ability to deliver scalable solutions, mentor team members, and integrate third-party tools. Experienced in training interns and contributing to healthcare-based Salesforce projects.

Clouds Known: Sales Cloud, Data Cloud (basic hands-on), Service Cloud (introductory knowledge), Marketing Cloud (introductory knowledge).

Technical Skills

- **Salesforce Development:** Apex, LWC, Aura, SOQL, HTML, CSS, JavaScript, Trigger, Flow Builder, Process Builder, Workflow, Validation Rules, and Formula Fields.
 - **Integration s Tools:** Postman, Workbench, Data Loader, Jira, and Change Sets.
 - **Customization:** Custom Metadata Types, Custom Settings, Custom Labels, Page Layouts, Record Types, Profiles, and Roles.
 - **Soft Skills:** Adaptability, Team Collaboration, Problem Solving, Quick Learner, Willingness to Work.
 - **Languages:** English, Hindi.
-

Professional Experience:

LMS Solutions LLC — June 2023 - Present

- Developed and customized Salesforce applications focusing on Sales Cloud using Apex, LWC, and Flows
- Integrated Salesforce with external systems using Microsoft Graph API and EasyLlama API.
- Mentored and trained one intern on Salesforce Administration fundamentals within 30 days.
- Created schedulers for real-time events syncing between Salesforce and Microsoft Teams.
- Customized UI/UX with dynamic components using LWC and AURA Framework.
- Collaborated with cross-functional teams for requirements gathering, testing, and deployments.

Projects:

1. **Mentor on Discharge Portal** (for NAMI—National Alliance on Mental Illness).

Roles & Responsibilities:

Role: Salesforce Developer (Trainee Phase, with Active Contribution)

- Assisted in designing and implementing user interfaces using **Lightning Web Components (LWC)**, contributing to screen layouts for roles like NAMI Admin and Social Worker.
- Actively collaborated with the senior developer to understand business requirements and translate them into UI components in a **Salesforce Community portal**.
- Resolved minor **security-related issues** and configuration bugs, gaining hands-on experience in user access and permission settings.
- Prepared comprehensive **project documentation**, including user flows, configuration steps, and technical summaries, ensuring clarity for future reference.
- Developed a strong understanding of the Salesforce ecosystem, especially in Sales Cloud, through practical learning and application.

2. Nurse Schedule Management System (For Signallamp).

Roles & Responsibilities:

Role: Junior Salesforce Developer.

- Collaborated with the team lead to understand requirements shared via **Jira tickets**, taking ownership of assigned development tasks.
 - Developed user interfaces using **LWC** and **AURA** components to enhance nurse schedule management functionality.
 - Implemented dynamic logic for personalized and flexible nurse scheduling based on real-time availability.
 - Integrated **Microsoft Graph API** to fetch nurse availability data and used **Moment.js** for date-time handling.
 - Built and tested real-time **appointment notification features** to improve user responsiveness.
 - Contributed to **schedule template creation** for recurring workflows and optimized repetitive scheduling tasks.
 - Integrated **Confetti.js** for visual feedback during key actions like schedule saves or confirmations.
 - Worked on **EasyLlama API** integration and resolved related data handling issues.
 - Applied asynchronous **Apex** (batch/queueable) for scheduled backend processing.
 - Gained hands-on experience through real-time issue resolution, code debugging, and deployment support under senior developer mentorship.
-

Education:

Bachelor of Engineering (Information Technology)

Sage University (Sagar Institute of Research and Technology)—2023
