Online Ethical Hacking Training (Internshala) - Dec'20-Jan'21

Gained proficiency in identifying vulnerabilities, conducting penetration testing, and assessing network security.

About

A dedicated and tech-savvy individual with a MSC in Computer Science searching for a challenging role at a progressive organization that offers immense growth opportunities and to implement my advanced knowledge and skills to contribute to the success of the organization.

Projects

➤ Portfolio Website | July'2023

- Designed and developed a **responsive** portfolio website from scratch using **HTML, CSS, and Bootstrap**.
- Implemented a responsive and visually appealing layout to ensure optimal user experience across various devices.
- Employed Bootstrap's responsive grid system and CSS media queries to ensure the website adapts seamlessly to various screen sizes and devices.
- Portfolio Link - <https://kanishkasardana.github.io/Portfolio-Kanishka/>

➤ Salesforce Project: Hotel App | March'2024

- Developed a comprehensive Hotel app on the salesforce platform. This project involved creating custom objects, fields, and establishing relationships between them.
- Additionally, created a clone of a Salesforce standard profile, managed user access and permissions, and designed a dashboard with an embedded report for real-time data visualization.
- **Tools and Technologies used:** Salesforce Lightning , Process Builder, and Custom Objects, Reports, Dashboards, Profiles.

Java Project: Student Management System | May'2024

Developed a console-based application in Java to manage student records, including functionalities for adding, updating, deleting students, and calculating GPAs.

Research Project

➤ Analysis of Anemia disease in Rural and Urban population using Data Mining techniques and J48 Classification Algorithm | Dissertation | Aug'21

- This dissertation presents an in-depth analysis of the prevalence of Anemia disease in rural and urban populations using data mining techniques.
- The study utilizes the J48 classification algorithm in the WEKA tool to identify and compare the occurrence of Anemia in different geographical areas.
- A comprehensive dataset containing health records of 100 individuals from rural and urban areas was collected from relevant healthcare facilities and databases. The results revealed significant differences in Anemia occurrence between rural and urban areas.

Internships

➤ Virtual Salesforce Student Intern - Dotsquare, Jaipur | May'20 – June'20

- Designed custom applications and created clone Salesforce Standard profile with tabular reports and dashboards.

➤ Salesforce Internship Trainee – iBirds Software Services Pvt. Ltd. | Jan'23 - Present

- Gaining practical experience in Salesforce Administration and Development.
