SUMMARY

Salesforce Enthusiast with 3+ years of experience in designing, developing, and implementing Salesforce solutions. Proficient in Apex, Visualforce, Salesforce APIs and CloudCraze managed package. Seeking to leverage expertise to contribute to a dynamic team in delivering innovative solutions and driving business success. Effective communicator and team player committed to leveraging technology to exceed project goals.

EDUCATION

BE in Information Science and Engineering

Aug '16 - Oct '20

Sapthagiri College of Engineering | Bengaluru, KA

KEY SKILLS

Apex Development, Salesforce Automation, Asynchronous Apex Handling, Query Optimization, Data Migration, Salesforce Integration (REST API), Data Security Implementation, Data Modeling & DML Operations, Visualforce UI Development, Foundational Lightning Web Components, Unit Testing, Java, JavaScript, Problem-Solving, Agile Methodology.

PROFESSIONAL EXPERIENCE

Consultant

Dec '20 - Present

Quinnox Consultancy Services | Bengaluru, KA

WM.com

- Experienced Salesforce Developer working in **WM.com project**. proficient in managing and customizing various Salesforce objects such as Order, Transaction, Cart, Contact, and Coupons within the CloudCraze managed package.
- Proficient in streamlining business operations through automation tools such as Process Builder, Workflow rules, Approval Processes and Triggers.
- Adept in data modeling and DML operations, adhering to best practices for efficient data management. Solid understanding of Apex fundamentals, including collections, access modifiers, transactions, rollback, and exception handling.
- Proficient in Apex programming, including Apex triggers, Trigger Context Variables with a strong understanding of data security measures such as org-level, object-level, field-level, and record-level security,
- Experienced in writing efficient SOQL queries, dynamic SOQL, querying related objects, SOSL, and managing return types effectively.
- Skilled in asynchronous Apex development using Future methods, Queueable Interface, Batchable and Schedulable Interface to handle large-scale data processing tasks.
- Proficient in developing user interfaces using Visualforce pages, standard and custom controllers, extensions, tabs, and managing system and user modes effectively.
- I possess a foundational understanding of Lightning web components and am actively engaged in furthering my expertise in this area.
- Experienced in inbound and outbound integrations using REST API and Apex callouts, proficient in various API types and HTTP methods.
- Adept at using integration logs to monitor and resolve integration failures efficiently.
- Expert in Coupon Management, Large-scale Data Operations with Data Loader, passionate about utilizing expertise.
- Adept in troubleshooting and resolving integration failures through Integration Logs, ensuring smooth data flow across systems.
- Proficient in utilizing JavaScript to enhance functionality and customize user interfaces within Salesforce applications.
- Skilled in navigating the intricacies of payment transactions on platforms like Cybersource.

KEY ACHIEVEMENT

Received **Spot Award** and **Accelerate Success Award** for outstanding contributions to **WM.com** Project.

CERTIFICATIONS/TRAINING

Full Stack Development Training Program (sept - Dec 2020)

Project - Asset management system.

- Comprehensive training in full stack development utilizing Angular 9 framework for frontend development and Spring Boot for backend development.
- Covered topics including frontend development principles, Angular 9 fundamentals, RESTful API design, backend development with Spring Boot, database management, and deployment strategies.

COURSES

(EOTO) Program - Salesforce Development

- Completed comprehensive training program covering Salesforce Development concepts and best practices.
- Developed proficiency in Salesforce platform, including Apex programming language, Visualforce, and Salesforce integration techniques.

Salesforce Development Courses on Trailhead

- Actively engaged in self-paced learning through Salesforce Trailhead platform.
- Applied acquired knowledge to real-world scenarios through hands-on exercises and projects.
