EDUCATION

- **Engineering College Of Ajmer, Ajmer** 2019 - 2023
Bachelor of Technology in Information Technology CGPA: 7.6
- **Maheshwari Public School, Ajmer** 2019
10th and 12th

TECHNICAL PROJECTS

• WatchFlix-GPT

Developed a **Netflix**-inspired web application combining the design aesthetics of Netflix with the functionality of ChatGPT.

- Implemented the project using **ReactJS** for the frontend, **TailwindCSS** for styling, **Redux** for state management enhancing the scalability and maintainability of the application., and **Firebase** for user authentication and accounts.
- Integrated **OpenAI API** for **ChatGPT** functionality, enabling users to discover movies based on provided keywords. Implemented **form validation** to enhance user input accuracy and improve the overall user experience.
- Leveraged the **TMDB** (The Movie Database) API to dynamically fetch and display real-time movie data, enhancing the application's ability to provide up-to-date information.

• TextUtils

ReactJS, CSS

- Developed TextUtils, a dynamic React application enabling users to perform a variety of text operations on paragraphs. Implemented features for text manipulation.
- Implemented functionality to accurately count characters and vowels within a given paragraph, providing users with valuable insights into the composition of their text. This feature enhances the application's utility for linguistic analysis and content management.
- Utilized React's state management to create a responsive and dynamic user interface. Employed efficient state updates to reflect real-time changes in the text content and ensure a smooth user experience during text editing and analysis tasks.

EXPERIENCE

• Frontend Developer Intern

Oct - Dec 2023

S.S. WealthServ Technologies Pvt Ltd.

Remote

- Worked for their **Stealth Startup Product "Stylepick"** ,Developed user-friendly interfaces using **ReactJS** for the companies product. Implemented efficient state management and data flow to enhance the overall user experience.
- Utilized JavaScript and ReactJS to build dynamic and interactive components, improving the overall functionality of the application. Leveraged **TailwindCSS** and **Material UI** for streamlined and maintainable styling, ensuring a consistent and visually appealing design.
- **Collaborated** closely with the backend development team to integrate **frontend components** with **backend APIs**, ensuring seamless communication and data exchange.

TECHNICAL SKILLS AND INTERESTS

Languages: C++, Javascript, HTML, CSS, SQL

Tools: VScode, Postman, Github

Frameworks/Libraries: NodeJS, ReactJs, ExpressJs, Redux, TailwindCSS, MaterialUI

Databases: MySQL

Relevant Coursework: OOPS, DBMS

CERTIFICATION

- Javascript Basic (Hackerrank).
- CSS Basic (Hackerrank).

ACHIEVEMENTS

– National School Games

*Got **Silver Medal** at (CBSE West Zone) in Boxing.*
