Business Analyst (3.5+ years). Skilled in project planning, requirements gathering, & process design. Expertise in LeadSquared & Salesforce CRM configuration. Eager to contribute my experience to your team.

EXPERIENCE

Business Analyst

Nov 2023 - Present

Magic Billion, Noida

At Magic Billion, I spearheaded the crucial transition from Leadsquared to Salesforce CRM.

This involved a comprehensive project encompassing several key areas:

- **CRM Transition & Data Migration:** Strategized the entire transition process, ensuring a smooth and efficient migration from Leadsquared CRM to Salesforce CRM. This included data migration planning and execution, configuration of the Salesforce platform, and user training.
- **Project Management:** Managed project phases, including kickoff meetings, requirement gathering, system configuration and implementation, demonstrations (show and tell sessions), user acceptance testing (UAT), and comprehensive user training.
- **Salesforce Customization:** Leveraged my expertise to design and implement end-to-end lead management processes within Salesforce. These tailored processes catered to the specific needs of various teams within Magic Billion, including Sales, Operations, Client Engagement, Relationships Management, Training Ops, and VISA teams.
- **Communication and Governance:** Facilitated daily cadence and bi-weekly governance calls with the primary point of contact of the teams and senior management to provide insights into project progress and address concerns.
- **Project Management Tools:** Utilized project management tools like JIRA to effectively collaborate on tasks, track progress, and delegate tasks amongst all team members.
- **Platform Adherence Planning and Training:** Persuaded teams to follow the processes designed on the CRM, to increase the efficiency and effectiveness of their work.
- **Reports and Dashboards:** Created Reports and Dashboards for Managers, Team Leads, and Users to track the tasks, user efficiency and usage of the platform.

Business Analyst - Professional Services

Sep 2022 - Sep 2023

Leadsquared, Noida

During my tenure at Leadsquared, I implemented and optimized CRM solutions for a diverse clientele spanning various industries. Some notable examples include Insurance Dekho, Acko Drive, Revolt Motors, Hero Housing Finance Limited, Canara HSBC, and Almondz Securities. My responsibilities included:

- **CRM Implementation:** I spearheaded the implementation of Leadsquared CRM, tailoring the platform to meet the specific needs of each client. This involved configuration, data migration, and user training.
- **Process Design and Optimization:** I focused on streamlining and optimizing sales team processes. This involved analyzing existing workflows, identifying areas for improvement, and designing efficient processes within the CRM for lead creation, nurturing, presales, sales, client engagement, and reselling.
- **Stakeholder Management:** I fostered strong relationships with all stakeholders, including client representatives, internal sales teams, and leadership. This included

clear communication on project progress, requirements gathering, and ensuring alignment with business objectives.

Business Analyst - Executive

Jan 2021 - Sep 2022

ClickLabs Pvt Ltd, Chandigarh

- **Adaptable Problem Solver:** Understood diverse business needs across industries (marketplace, delivery management, CRM, etc.) and translates them into effective technical solutions.
- **Proven Delivery Track Record:** Successfully delivered SaaS, forked codebase, and original source code projects for various clients.
- **Client-Centric Focus:** Managed high-value clients (> \$20,000) and smaller projects (> \$5,000), consistently exceeding expectations.
- **Effective Communication:** Built strong relationships with clients, partners, and internal teams through clear communication.
- **Commitment to Quality:** Ensured projects meet product roadmaps, release plans, and KPIs for on-time, on-budget delivery.
- **Knowledge Sharing Champion:** Trained and transferred knowledge to over 20 individuals across multiple teams, fostering collaboration.
