EDUCATION

Vellore Institute of Technology, B. Tech. Electrical and Electronics | CGPA: 7.58/10

Chennai, Tamil Nadu | Class of 2021

- **Course Work: Problem Solving and Programming, Problem Solving and Object-Oriented Programming, Microprocessor and Microcontroller, Advanced Digital System Design using FPGA, Advanced Java Programming (Soft Skills),** Application of Differential and Difference Equation, Complex variables and Partial Difference Equations, Statistics etc.
- **NPTEL Courses:** 1. **Programming in Modern C++** (IIT Kharagpur Score: 70 % (Elite) Jan-Apr 2023)
- 2. **Programming in Java** (IIT Kharagpur Score: 63 % (Elite) Jan-Apr 2023)
- 3. **Artificial Intelligence Knowledge Representation and Reasoning** (IIT Madras Score: 61 % (Elite) Jan- Apr 2022)

WORK EXPERIENCE

Relecotech Software Solutions Pvt. Ltd., Nagpur

From | 16 January, 2023 – Till Date

- Currently working on Salesforce Org. (Profile: www.salesforce.com/trailblazer/manthanborage)
- Implementing assignments and got acquainted with topics such as objects, data types, relationships, workflows, approvals etc.
- Optimized Salesforce integration by leveraging Apex programming and SOQL queries, resulting in increase in data processing.
- Deployed robust Lightning Web Components with Lightning Application with the help of SFDX-CLI and VS Code.
- Working on Ordering and Billing project in License Management Org (LMO) for managing the billing of licenses of Releco-HR1.

Raja Ramanna Centre for Advanced Technology, Indore

Duration | 13 May, 2019 – 5 July, 2019

- Worked on the project “A Study of Operation and Controller Design for Non-Isolated Switching DC-DC Converter” for B Tech.

PROJECTS

Vellore Institute of Technology, Chennai

Solar Based EV Charging Station, Capstone Project

- Designed and simulated solar based EV charging station consisting of two-switch forward converter using MPPT algorithm.

Electric Charging Gloves, Lean Startup Management

- Researched and proposed the idea of electric gloves by making the use of conducting liquid material for development of circuitry.

PERSONAL PROJECT

Healthcare Lightning Application

- Conceptualized, built and automated Salesforce Lightning Application to manage appointments of patients with doctors.

Monthly Expense Tracker

- Developed the menu-based application intended for common users for tracking the monthly expenditure by listing the expense.
- Built graphical user interface of windows application using C++/CLI and .NET Framework SDK integrated with MySQL database.
- Implementing the Front-End of the web application of expense tracker using HTML, Bootstrap Framework of CSS and JavaScript.

PUBLICATION

Vellore Institute of Technology, Chennai

Manthan Mangesh Borage, Dipen M. Vachhani, Rajesh Arya, “Design and Implementation of Feedback Controller for Non-Isolated Switching DC-DC Buck Converter Operating in Continuous Current Conduction Mode”, *Select proceedings of PECCON 2019, Springer*

SKILLS AND INTERESTS

Technical

- Salesforce: Fields and Relationships, Validation Rules, Flows (Screen and Record Triggered, Schedule Triggered, Platform Event Flows using Flow Builders), Lightning App Builder, Approval Process, Workflows, Apex (Controller Classes, Test Classes, Triggers, Batch, HTTP Callouts using REST, HTTP Web Services), SOQL, Visualforce, LWC (HTML, CSS, Advanced JavaScript, XML, Lightning Design System), Lightning Aura Component, SFDX CLI, Security Settings, Admin Configuration, Sales Cloud, CPQ (Quote Line Editor, Bundled Product, Option Constraints, Product Rules, Guided Selling, Pricing Methods etc.) , Integration (Postman, Patterns, Batch Integration between orgs using Connected App, Auth Providers and Named Credentials), Data Loader.
- C, C++ and OOPs Concepts, SQL (Interfaced with C++, MySQL), Python, Java, ORCAD, MATLAB, Verilog HDL, Keil µVision

Languages: English, Hindi, Marathi, French
