CAREER OBJECTIVE

I'm on the lookout for a chance to elevate my Salesforce Development expertise with a progressive organization. I'm dedicated to making a meaningful impact on the organization's goals and working alongside a dynamic team to achieve mutual growth.

PROFESSIONAL SUMMARY

- Skilled in CSS, JavaScript, HTML, and foundational OOPS Concepts.
- Expert in Salesforce CRM, covering Development, Administration, Configuration, Implementation, and Support.
- Proficient in Apex language and Force.com.
- Extensive experience with Apex Development and Administration, including Apex Triggers & Classes, Test Classes, and Asynchronous Apex (e.g., @future, Queueable, Batch, Schedule).
- Strong knowledge of APEX Triggers, APEX Test Classes, and Lightning Web Components (LWC), including Integration.
- Hands-on expertise in building Custom Objects, Custom Apps, Tabs, Custom Reports & Dashboards, and using Data Loader.
- In-depth understanding of Salesforce Relationships, including Lookup and Master-detail relationships.
- Skilled in Salesforce.com automation tools such as Validation rules, Workflows, Approval processes, and Flows for Business Process Automation.
- Well-versed in Security Model levels, covering Org, Object, Field, and Record level security.

INTERNSHIP / EXPERIENCE

- **Cloud Intellect**, Nagpur
Salesforce Developer Trainee.

July 2023 – Present

PROJECT

Project : Car Hub Application using Salesforce

Details: Created a Salesforce Car Hub App for efficient inventory management, sales, and customer engagement. Customized workflows, interfaces, and integrated APIs for seamless data handling. Enhanced user engagement by implementing real-time updates on car listings.

- Designed a Salesforce Lightning component with three sections: a left section containing car filters, a middle section displaying car images and options, and a right section that showcases a full car image, description, and price upon clicking on a specific car.
- Utilized Salesforce parent-to-child communication, LMS services, CSS lifecycle hooks, and integrated Salesforce objects to achieve this functionality.

- Constructed a unified UI page leveraging Salesforce objects for streamlined data administration.
- Developed custom applications, custom objects, tabs, custom fields, page layouts where required.

Project : Real Estate Project using Salesforce CRM.

Details : Developed a Salesforce Real Estate project, enhancing property management and client interactions. Customized workflows, objects, and interfaces for seamless sales processes and integrated external APIs for expanded functionalities.

Technologies Used : Salesforce, Lightning Web Components (LWC), Apex, SOQL.
