

Mohammed Ashhad Khan

Jaipur, Rajasthan, India | mohdashhadkhan2005@gmail.com | +91 89558 23914 | [LinkedIn](#)

SUMMARY

Data Analyst and AI Enthusiast with hands-on experience in Python, SQL, and **data visualization**. Skilled at turning data into **actionable insights** through dashboards, predictive models, and performance reporting.

EDUCATION

Poornima University , Jaipur, Rajasthan — <i>BCA in AI & Data Science</i> CGPA: 8.51/10 (2nd Year)	Sep 2023 – Present
St. Stephen's Sr. Secondary School, Ajmer — <i>12th Grade</i> Percentage: 72%	2022 – 2023
St. Stephen's Sr. Secondary School, Ajmer — <i>10th Grade</i> Percentage: 78%	2020 – 2021

EXPERIENCE

Growly — <i>Data Analyst Intern</i>	May 2025 – Aug 2025
- Executed comprehensive exploratory data analysis (EDA) and data cleaning on 10,000+ records using SQL and Excel, uncovering patterns to enhance predictive analytics. - Improved forecast accuracy by 25% through advanced <i>feature engineering</i>, predictive modeling, and model validation. - Designed, automated, and deployed interactive Power BI dashboards for KPI reporting, enabling executives to make <i>real-time business decisions</i>. - Streamlined recurring reporting workflows by building automation scripts and standardized templates, cutting manual reporting time by 40%. - Partnered with cross-functional stakeholders (product, operations, and strategy teams) to translate business needs into actionable data-driven insights and measurable outcomes.	

PROJECTS

Interactive Sales Chatbot — <i>AI Chatbot Development</i>	2025
- Built an AI-powered chatbot for product ordering and customer support using Python, REST APIs, and SQL. - Designed a <i>responsive web interface</i> with HTML, CSS, and JavaScript; optimized database queries for faster response times.	
Face and Object Detection System — <i>Computer Vision Project</i>	2025
- Implemented real-time computer vision models with Python and OpenCV for accurate detection. - Optimized performance for static images and webcam streams; validated against benchmark datasets.	
Flipkart Website Clone (Frontend) — <i>UI/UX Frontend Development</i>	2024
- Created a responsive e-commerce prototype with product listings, filtering, and checkout workflows. - Applied <i>UI/UX design principles</i> to deliver an intuitive, user-friendly platform.	

SKILLS

Programming & Tools: Python (Pandas, NumPy, Matplotlib, Seaborn, scikit-learn), SQL, Git, Jupyter, VS Code, Google Colab.
AI/ML & Data Analysis: NLP, Computer Vision, Supervised & Unsupervised Learning, Model Evaluation, EDA, Data Cleaning, Data Wrangling, Feature Engineering.
Visualization / BI: Power BI, Tableau, Excel (Pivot Tables, Advanced Charts), Business Intelligence, Software Testing.

CERTIFICATES

NPTEL — <i>Retail Marketing Strategy</i>	Sep 2024
NPTEL — <i>Cloud IoT Edge ML</i>	Jun 2025
Coursera — <i>Python Programming Basics</i>	Jan 2024
Coursera — <i>Data Analysis with Excel</i>	May 2025
