[My Portfolio](#)

EDUCATION

CBSE(X)

Modern School - Noida, 2014, CGPA: 8.4

CBSE(XII)

Modern School - Noida, 2016, Percentage: 80.4

Bachelor of Science Electronics (Hons.)

Maharaja Agrasen College, Delhi University, 2020, CGPA: 7.14

Master of Science Electronics (Hons.)

Jamia Millia Islamia-Delhi, 2022, CGPA: 8.61

SKILL SETS

HTML, CSS, JavaScript, Apex, Triggers, Flows, LWC, SOQL, SOSL

PROJECTS

Weather Application using Lightning Web Components (LWC) –

- Developed a weather application using LWC, integrating with the OpenWeatherMap API for real-time weather data. Also, implemented a user-friendly interface that displays current weather conditions and weather alerts based on user location. Utilized Salesforce LWC to create dynamic and responsive components, ensuring seamless performance across devices.

Note Taking App using LWC –

- Developed a Note Taking application using LWC, enabling users to create, read, update, and delete (CRUD) notes within Salesforce and also securely store and manage notes, ensuring data integrity and accessibility.

Alarm Clock App using LWC –

- Developed an interactive Alarm Clock application using LWC, featuring real-time clock display and customizable alarm settings. Implemented alarm functionality allowing users to set alarms for specific times, with visual (vibrating clock icon) and audio notifications upon activation.

Currency Converter using LWC –

- Developed a Currency Converter application using LWC, integrating with the exchangerate.host API for real-time currency conversion. Implemented API integration to fetch and display up-to-date exchange rates, enabling accurate currency conversions for users. Also, designed a user-friendly interface allowing users to easily input amounts and select currencies for conversion, with instantaneous results.

EXPERIENCE

Customer Executive at Electronic Arts (EA) – Inergizer, Noida

Jan 2023 – Mar 2024

- Served as a Customer Executive in the Electronic Arts (EA) process at Inergizer, utilizing Salesforce to manage and resolve customer queries efficiently.

Software Engineer Intern – TechCompiler Data Systems (A CMMi Level), Noida

Aug 2022 – Oct 2022

- During the internship, I discussed issues with team members to provide resolution, apply best practices, and develop some CRUD operation specifications for the project plans using customer requirements on some projects.
