WORK EXPERIENCE

Salesforce Developer

Freelance

08/2023 - Present

Achievements/Tasks

- Created and managed **projects** for **Lightning Web Components**, utilizing extensive **Salesforce Development**, and **Administration skills**.
- Developed comprehensive **Data Models**, implemented **Automations**, and enforced **Security Controls** to ensure strong data integrity and compliance.
- Developed and implemented **Apex Classes**, executed efficient **SOQL** and **SOSL** queries, and managed both **Synchronous** and **Asynchronous Transactions** for optimal system performance.
- Designed components using **Base Lightning Components** built on the **Lightning Design System(LDS)**, integrating **Lightning Data Service Wire Adapters, Functions**, and **Apex class** calls for enhanced functionality.

Intern

Persistent Systems

05/2022 - 06/2022

Martian Internship Program 2022

Achievements/Tasks

- Learned and worked on Operating Systems, Java, Python, Computer Networks, Data Structures & Algorithms, DBMS.
- Proficient in navigating various operating systems and implementing software solutions using Java, C++, and Python, with a strong understanding of computer network fundamentals and database management systems.
- Skilled in optimizing software performance through efficient data structures and algorithms, ensuring seamless communication and data integrity in diverse computing environments.
