Work Experience

Frontend Architect | Freelancer - Nov/2023 - Present

- Design and optimize scalable, user-friendly frontend architectures.
- Improve UI performance and ensure responsive designs with clean, reusable codebases.
- Collaborate with teams and mentor developers to adopt best practices in frontend development.

Internship - iBirds Software Services Pvt. Ltd., Ajmer, India -Feb/2022 - July/2022

- Completed a 6-month Industrial Training Program in Java Core at iBirds Software Services Pvt. Ltd.
- Gained foundational knowledge in Java fundamentals, OOPs, multi-threading, and data structures.
- Built hands-on experience through practical exercises and real-world scenarios

Project

1) Todo List | JavaScript | HTML | CSS

- Add, edit, and delete tasks dynamically.
- Mark tasks as complete/incomplete with a visual indication.
- Tasks are stored in local storage, ensuring data persists across page reloads.

2) Weather Application | JavaScript | HTML | CSS | API Integration

- Fetch real-time weather data using an API (e.g., OpenWeatherMap).
- Display temperature, weather conditions, and location details.
- Search functionality to get weather updates for different cities.

Award

- Gold Medalist in B. Tech 3rd Year, Bhagwant University Ajmer, India

Hobbies

- Reading Spiritual Books
- Sports – Badminton
- Cooking
