PROJECTS

Finance

This financial tech company makes software for auto loans and other personal loans. They offer a cloud-based platform that helps with the whole loan process—from starting the loan and managing it to tracking data and handling loan groups.

(**Skills**-Admin, Apex, Trigger, LWC, Flow, Workflow Rule, Process Builder, Analytic Studio Report, Dashboard, Changeset.)

Insurance

This company, based in Atlanta, offers risk management products and services around the world. It sells many types of special insurance, like property, accident, device protection, and preneed insurance. Its main business areas are Global Housing and Global Lifestyle.

(**Skills**: Admin, Apex Classes, Apex Trigger, Reports and Dashboard, CRM Analytics)

Employee Management System(Internal)

This is a custom Employee Appraisal System built on Salesforce. It helps make the employee review process easy and digital. The system covers the full review cycle—from setting goals and doing mid-year checks to final reviews and getting feedback.

(Skills:- Trigger, Flow, Process builder, Workflow Rule, Ant tool.)

Human Resource Management System

The HRMS is a centralized portal designed for seamless employee management within an organization. It enables employees to mark attendance, maintain timesheets, submit expenses, raise queries, and provide feedback. The system also supports organizational hierarchy management. It is integrated with a **Salesforce Org** to manage backend functionality and leverages **SAML** for secure Single Sign-On (SSO) authentication.

(Skills- Integration, CakePHP, MYSQL)
