Profile Summary

Motivated and ambitious software engineer with 1 year of experience in Salesforce, Lightning, Aura, Apex, and JavaScript. Adept at developing Lightning components, classes, SOQL queries, and REST APIs, with a proven ability to provide timely solutions and work effectively in a team environment. Skilled in using Apex triggers, process builder, and bulk testing for efficient Salesforce customization and automation. Experienced in UI improvements, functionality development, and using version control systems like SVN and Git. Proficient with Jira for project management and deploying changes using outbound change sets and permission sets.

Professional Experience

Persistent Systems

Software Engineer

October 2020 – August 2021

- Worked on projects in the financial sector, focusing on the development and maintenance of Salesforce applications.
 - Developed Lightning components, classes, and SOQL queries to meet client requirements.
 - Utilized Apex triggers and classes for complex business logic and automation.
 - Created and managed REST APIs for seamless integration with external systems.
 - Implemented process builder and workflow rules to automate business processes.
 - Conducted bulk testing to ensure data integrity and performance.
 - Improved user interface and developed new functionalities to enhance user experience.
 - Provided production support, including tracking and fixing production bugs.
 - Collaborated with team members to ensure timely delivery of project milestones and outputs.
 - Managed version control using SVN and Git.
 - Deployed changes using outbound change sets and managed user access with permission sets.
 - Used Jira for tracking issues, managing project tasks, and maintaining project documentation.
-

Technical Skills

- **Salesforce:** Proficient in developing and customizing Salesforce applications.
 - **Apex:** Expertise in programming Apex for server-side logic, including triggers and classes.
 - **Lightning Web Component:** Skilled in developing Lightning Web Components for enhanced user interfaces.

- **Aura:** Experienced in creating and managing Aura components.
 - **SOQL, SOSL:** Strong understanding of Salesforce Object Query Language (SOQL) and Salesforce Object Search Language (SOSL) for efficient data retrieval.
 - **REST API:** Experienced in developing and consuming RESTful APIs.
 - **Process Builder:** Skilled in automating business processes using Salesforce Process Builder.
 - **Bulk Testing:** Proficient in conducting bulk testing for data integrity and performance.
 - **UI Improvement:** Implemented various enhancements to improve user experience.
 - **Functionality Development:** Developed new functionalities to meet business requirements.
 - **SVN, Git:** Proficient with SVN and Git for version control and collaboration.
 - **Outbound Change Sets:** Experienced in deploying changes using outbound change sets.
 - **Permission Sets:** Managed user access and permissions.
 - **Project Management Tools:** Familiar with Jira for issue tracking and project management.
 - **Programming Languages:** Java, Python.
-

Education

Bachelor of Engineering (Computer Science) LNCT Bhopal RGPV University

2016 – 2020 8.3 CGPA

Accomplishments

- Successfully contributed to the development and maintenance of financial sector projects at Persistent Systems.
 - Provided effective production support, resolving critical issues in a timely manner.
 - Consistently delivered project components on schedule, contributing to overall team success.
-

Core Competencies

- **Client / Stakeholder Engagement:** Capable of understanding client requirements and delivering effective solutions.
- **Team Collaboration:** Works well within a team to achieve common goals.
- **Technical Documentation:** Proficient in creating and maintaining technical documentation for projects.
- **Problem Solving:** Strong analytical skills for identifying and resolving issues efficiently.
- **Project Management:** Familiar with Agile methodologies and project management tools.
- **Continuous Learning:** Committed to ongoing professional development and staying updated with the latest industry trends.
