About Me

Experienced Salesforce software engineer with expertise in Apex, Visual Force, SOQL, and Lightning framework. Strong background in Salesforce B2B Commerce and Lightning for Salesforce B2B Commerce. Skilled in configuration, administration, and process automation. Proficient in managing profiles, permissions, and data loader. Experienced in integrations and web services.

Professional Experience

Associate Salesforce Developer (RafterOne)
Oct 2021 to Sept 2023

Key responsibilities:

- Developed and maintained Salesforce applications using Apex, Visual Force, SOQL, and the LWC framework.
- Utilized Lightning for Salesforce B2B Commerce to design and implement data models, product catalogs, pricing entitlements, logic classes, and service classes.
- Leveraged IDE tools such as VS Code and Eclipse for development and debugging.
- Proficient in web services, including REST, SOAP, JSON, and XML.
- Adapted Lightning Data models to meet specific requirements through configuration and customization.
- I have extensive experience in developing and maintaining SFDC system documentation, including system diagrams, data models, technical specifications, and other related documentation.
