PROJECT

TITLE : Tech Tales
DOMAIN : Health Care

RESPONSIBILITIES /CONTRIBUTION

- Involved with requirement analysis, functional specs and design documentation.
- Interacting with clients to gather requirements.
- Prepared the data migration process, considering the best data import tools available within Salesforce.
- Created the necessary objects and fields, ensuring align with Tech Tales requirements. Set up Record Types for these objects to differentiate request types.
- Maintained data cleanliness and accuracy by adding custom validation rules, custom formulas, custom Labels, custom settings, reports and dashboards.
- Established a data security model using Salesforce's Organization-Wide Defaults (OWD).
- Verified the security settings to maintain data privacy, which is crucial in the healthcare industry.
- Defined sharing rules and permissions to ensure that data is accessible to the right users based on requirements.

DECLARATION

I hereby confirm that all the facts stated above are accurate to the best of my belief.
