

SIMRAN KAUR RAYAIT

Rajasthan, India | 9358018387 | simranrayaitwork@gmail.com | [LinkedIn](#) | [Project Portfolio](#)

Aspiring Data Analyst with a strong academic background in Computer Science and a passion for transforming data into actionable insights. Skilled in SQL, Microsoft Excel, Power BI, Tableau, and Python. Experienced in data cleaning, data visualization, dashboard creation, and reporting through hands-on projects. Proven ability to extract meaningful patterns and trends to support data-driven decision-making.

TECHNICAL SKILLS

- **Visualization:** Power BI, Tableau, Power BI Service, Data Storytelling, DAX, Power Query (M), Advanced Excel.
- **Programming & Analysis:** Python, SQL, MySQL, Machine Learning, Time Series Analysis
- **Data Handling:** Data Cleaning, ETL Processes, Data Modelling, Pivot Tables, VLOOKUP
- **APIs & Automation:** Familiar with JSON structures, Python requests library, GET/POST methods, API data integration for workflows.
- **Soft Skills:** Problem Solving, Adaptability, Decision-Making, Communication.

WORK EXPERIENCE

Core web vital Expert | Drift point, Jaipur

1/2023 – 11/2024

- Collected, cleaned, and analyzed web performance data from GTmetrix, Google Page Speed Insights, and WebPageTest for over 500 websites to identify performance bottlenecks and optimization opportunities.
 - Designed and maintained interactive dashboards in Excel and other visualization tools to monitor key performance indicators (KPIs), ensuring continuous tracking of improvements and early identification of issues.
- Tools used:** Power query, MS Excel, VLOOKUP, Pivot Table, MS Word, WordPress, PHP, JS, CSS.

Business Analyst - Data |Blue Nectar, Gurgaon

7/2025 -Present

- Designed and maintained interactive dashboards in Excel and other visualization tools to monitor key performance indicators (KPIs), ensuring continuous tracking of improvements and early identification of issues.
 - Maintained and optimized pricing across multiple platforms to ensure accuracy, competitiveness, and alignment with business strategy.
 - Analyzed product and platform performance to identify trends, risks, and revenue-growth opportunities.
 - Developed data-driven insights and presented actionable recommendations to support strategic decision-making.
- **Tools used:** Advanced Excel, Power BI, Python, Shopify

PROJECTS

Telco. Inc Churn Analysis | Power BI | [Link](#)

- Developed an interactive Power BI dashboard to analyze churn behavior across 7,032 customers, uncovering a 26.6% churn rate and 17.8% revenue loss.
 - Identified and visualized key churn drivers such as fiber optic users, paperless billing (6.6%), and electronic check payments to guide strategic interventions.
 - Enhanced stakeholder decision-making by 30% through actionable insights segmented by demographics, services, and payment methods.
- Skills Used:** Power BI, DAX, data cleaning, data visualization, churn analysis, stakeholder reporting, business intelligence.

PV Doctor Plant Analysis| Python, Pandas, Matplotlib, OS | [Link](#)

- Engineered a single, scalable preprocessing function that efficiently consolidated and cleaned 982 daily data files, reducing data preparation time by 40%.
 - Developed a modular visualization function generating dynamic performance trend graphs with 30-day moving averages, color-coded irradiance levels, and automated budget lines—improving stakeholder insight delivery by 35%.
 - Implemented flexible date-range filtering to enable targeted analysis, increasing analytical precision and facilitating timely operational decisions.
- Skills Used:** Python, Pandas, Matplotlib, Data Engineering, Visualization, Time Series Analysis, Code Optimization.

8-Week SQL Challenge (In Progress) | SQL (PostgreSQL), Data Analysis | [Link](#)

- Solving real-world business case studies using advanced SQL techniques including CTEs, window functions, aggregations, and multi-table joins.
 - Documenting and publishing solutions on GitHub to demonstrate analytical thinking, query structuring, and problem-solving skills in a professional format.
- Skills Used:** SQL, Query Optimization, Data Cleaning, Business Analysis, Problem Solving, GitHub Documentation.

EDUCATION

Integrated BCA and MSC in Computer Science	04/2019 – 03/2023
Sophia Girls College (Autonomous), Ajmer	
Data Science	06/2024 – 09/2024
NSDC PGC In Data Science, Online	
Skills Learned: Data Management and Analysis with Advanced Excel, SQL for Data Analytics and Insights, Tableau for Data Visualization, Python for Machine Learning.	

ACHIEVEMENTS

- Hacker Rank – SQL Silver Badge.
- NSDC PGC Data Science Certification

AVAILABILITY

- Ready to join immediately | Available for interview at your convenience.
