Worked for **Glowbrite Systems Pvt Ltd - BANGALORE** as a **Software Engineer** from **Jan -. 2022 to Present date.**

Worked for **SYSKA LED lights Pvt Ltd - Pune** as a **Service Executive** from **April -. 2019 to Dec -2021.**

Worked for **Sedemac mechatronics Pvt Ltd-Pune** as a **Quality Controller** from **Jan 2018 to June 2018.**

PROJECT SUMMARY

TITLE : AFS LOGISTICS

ENVIRONMENT : Salesforce, Lightning Web Components, Apex, Integration, Flows.

TEAM SIZE : 5

Objective:

The objective of the AFS Logistics Management System Development project was to create a robust and efficient logistics management platform tailored to the specific requirements of the client. The primary goals included streamlining logistics operations, improving efficiency, enhancing productivity, and providing real-time visibility into the supply chain.

ROLES AND RESPONSIBILITIES:

- Collaborated with the team to design and implement Lightning Web Components for improved user experience and interface customization.
- Utilized Apex to develop custom business logic, including complex validation rules and calculations.
- Designed and implemented Flows to automate business processes and guide users through specific tasks.
- Conducted performance tuning and optimization of Apex code to ensure scalability and efficiency of the application.
- Provided ongoing support and maintenance, including troubleshooting and resolving issues reported by end-users.
- Conducted user training sessions to ensure smooth adoption and utilization of the logistics management system.
- Worked closely with stakeholders to gather feedback and incorporate enhancements to meet evolving business needs.
- Maintained documentation for system configurations, customizations, and integrations for future reference and knowledge transfer.
- Integrated Salesforce with external systems, resulting in a 20% increase in data accuracy.
- Developed Lightning Web Components for improved user experience, reducing user training time by 30%.
- Stayed updated with the latest Salesforce features, technologies, and best practices to continuously improve the system and stay ahead of industry trends.

TITLE : Kinela Health Services

ENVIRONMENT : Salesforce , Lightning Web Components, Apex, HTML, and JavaScript.

TEAM SIZE : 5

Objective:

The objective of the Kinela Health Services Application Development project was to create a comprehensive healthcare management system tailored to the specific needs of Kinela

Health Services. The application aimed to streamline various healthcare processes, improve patient care, and enhance overall operational efficiency. Kinela Health Services project is

based on the Service Cloud.

ROLES AND RESPONSIBILITIES:

- Configured Service Cloud features such as Cases, Case Queues, and Case Assignment Rules to manage healthcare service requests effectively.
- Implemented Service Cloud Console to provide a unified view of patient information and streamline support processes.
- Customized Case Page Layouts, Record Types, and Processes to match the workflow requirements of healthcare service agents.
- Designed and developed Lightning Web Components (LWC) for Service Cloud functionalities, such as displaying case details and facilitating case updates.
- Integrated Service Cloud with external systems or databases to retrieve patient information or other relevant data for efficient case resolution.
- Configured Service Cloud features, leading to a 15% improvement in case resolution times.
- Created Reports and Dashboards specifically focused on service metrics, such as case resolution times, agent performance, and patient satisfaction scores.
- Utilized Service Cloud Automation tools like Workflow Rules, Process Builder, and Flow to automate repetitive tasks and streamline service processes.
- Developed custom Apex triggers and classes to extend Service Cloud functionalities as per Kinela Health Services' specific requirements.

- ⇔ Completed **B.E** in **Electronics and Telecommunications Engineering** in 2016 from **Umrer College of Engineering** (UCOE).
- ⇔ Completed **Diploma** in **Electronics Engineering** in 2012 from **Umrer Polytechnic Umrer** (UPU).

PERSONAL DETAILS

- ⇔ **Permanent Address** : **AT : Gadpipari Po : Amboli Ta: Chimur Dist : Chandrapur**
- ⇔ **Date of Birth** : **09/09/1989**
- ⇔ **Nationality** : **Indian**
- ⇔ **Language known** : **English, Hindi, Marathi.**
