CAREER SUMMARY:

Salesforce Developer with nearly 3 years of experience working on enhancement, support, and feature development in existing Salesforce implementations. Hands-on experience in Sales Cloud and Service Cloud with strong exposure to Flows, Apex, Triggers, Asynchronous Apex, Lightning Web Components (LWC), and basic integrations. Experienced in analyzing business requirements, implementing automation, and supporting production environments. Comfortable working in team-based projects and contributing to scalable Salesforce solutions.

WORK EXPERIENCE:

HIC Global Solutions

Salesforce Developer | May 2023 - Present

- Worked on multiple client Salesforce orgs providing new features, enhancement, customization, and support for existing implementations.
- Configured Sales Cloud and Service Cloud features including custom objects, fields, validation rules, page layouts, and record types.
- Built and modified Lightning Flows to automate business processes and reduce manual effort.
- Implement and Supported Async Apex, Apex triggers, helper classes, and SOQL queries under guidance of senior developers.
- Assisted in debugging issues related to Flows, Apex, and data inconsistencies in production environments.
- Interacted with internal stakeholders and clients to understand requirements and explain implemented changes.

RELEVANT PROJECTS:

Salesforce Support & Automation – Healthcare & Claims Management Platform

- Worked on Salesforce modules supporting claims, billing, and case management processes.
- Enhanced Flows and validations to support claim lifecycle tracking.
- Assisted in report and dashboard creation for operational visibility.
- Provided ongoing production support and minor feature enhancements.

Salesforce Reporting and Case Management for Water Monitoring Platform

- Supported Salesforce Case object customization for issue tracking and resolution.
- Modified Flows and basic Apex logic to improve case handling and automation.
- Helped troubleshoot issues related to reporting and automation failures.

Case Management in community site for retail marketplace

- Currently working as part of a Salesforce development team on a large retail marketplace implementation.
- Involved in case resolution related to Order and Order Item issues.
- Supporting development of Salesforce Experience Cloud (Community) features.
- Assisted in building and modifying Lightning components and Flows for customer-facing functionality.
