EDUCATION

SRM University

M.Tech - Computer Science and Engineering - -

2022

Haryana

Delhi Technological University

B.Tech - Computer Science and Engineering - -

2015

New Delhi

SKILLS

Salesforce Development: Apex development, Visualforce, Lightning Web Components, SOQL, SOSL, Salesforce APIs, Triggers, Salesforce Integration

Salesforce Administration User Management, Security and Sharing, Data Modeling, Workflow, Process Automation

Languages: C++, C, JavaScript, SQL, Apex

Technologies/Frameworks: HTML5, CSS3, MongoDB, Express, React, NodeJS, Bootstrap, IBM Cognos

Developer Tools: VS Code, PyCharm, Postman, Mongo DB

PROJECTS

Supply Chain Management and Contact Manager System [🔗](#) | Salesforce Development

2024

- Developed real-time inventory visualizations with Chart.js and Lightning Web Components, and automated data tracking with scheduled Apex jobs
- Ensured data consistency using triggers and Apex classes, and optimized system performance for better decision-making.
- Built a robust contact management system with Apex and Visualforce, and implemented custom objects, fields, and validation rules.
- Created dynamic user interfaces with Lightning Web Components, and integrated third-party APIs for enhanced functionality.

E-Commerce Platform and Food Ordering Website [🔗](#) | MERN STACK

2023

- Developed data-driven applications using MongoDB, Express, React, and Node.js (MERN) with Material UI for intuitive and responsive designs.
- Implemented JWT authentication for secure user access and utilized Postman for thorough API testing and troubleshooting.
- Enhanced user experience with React hooks for dynamic navigation and real-time updates from MongoDB and Created robust backend logic for data storage, API interactions, and user management, ensuring seamless performance across devices.
- Designed user-friendly interfaces for browsing products, searching ingredients, and managing user accounts.

Advanced Predictive Analytics and Customer Insight for Global Superstore [🔗](#) | AI/ML

2023

- Leveraged regression, machine learning algorithms, and data visualization tools to predict sales, optimize offerings, and understand customer behavior.
- Uncovered insights on price impact, regional preferences, and marketing influence, informing sales growth and strategic decision.

PUBLICATIONS

Bank Marketing Campaign Data Analysis (Under Publication in Springer) [↗](#) **2024**

- Analyzes the effectiveness of marketing campaigns in the banking sector using various data analysis techniques.
- Explores predictive models to identify potential customers who are likely to subscribe to a term deposit.
- Submitted to SN Computer Science and currently under review for publication in Springer.

Dynamic Link Prediction in Evolving Networks (Under Publication in Springer) [↗](#) **2024**

- Developed the Temporal Contextual Embedding Similarity (TCES) model for dynamic link prediction.
- Integrated temporal and contextual embeddings to capture network evolution and improve prediction accuracy.
- Addressed challenges in data sparsity, contextual influences, and scalability using advanced metrics and temporal graph neural networks (T-GCN).

EXPERIENCE

Internship, Bharat Electronics Limited, Ghaziabad [↗](#) | [SQL, DBMS](#) **June 2018 - July 2018**

- Optimized database queries, achieving a 20% improvement in execution time, and developed database structures for three projects.
- Assisted in data migration with 99.9% accuracy, enhancing data organization and accessibility.

Internship, Chemie Tech,DMCC, Punjab [↗](#) | [Computer Network](#) **Dec 2017 - Dec 2017**

- Configured and maintained network infrastructures, improving network reliability by 15%.
- developed skills in network security, including implementing access control lists (ACLs) and configuring virtual private networks (VPNs). .

Coding and Development Platforms

- **Coding Ninjas:** 50000+ Score, Solved 300+ Problems [↗](#)
- **Salesforce Trailhead:** 65,000+ points [↗](#)

CERTIFICATIONS

- Fundamental of HTML - Coding Ninjas
- Fundamental of CSS - Coding Ninjas
- Basic of Javascript - Coding Ninjas
- Basic of C++ - Coding Ninjas
