

SUMMARY

Dedicated programmer with a strong foundation in Data Structures and expertise in languages like Java, C, C++, and MySQL. Passionate about solving complex problems, continuously learning, and contributing to innovative software solutions in a collaborative environment. Seeking an entry-level role to apply my problem-solving skills, expand my knowledge, and make a meaningful impact.

EDUCATION

Poornima University

Master of Computer Applications, CGPA: 8.14

Jaipur, Rajasthan

University of Rajasthan

Bachelor of Computer Applications, Percentage: 73.5

Jaipur, Rajasthan

SKILLS SET

- | | | | |
|-------------------------------|------------------------------|-----------------------|-----------------------------------|
| • Languages: | C/C++, Java Core, JavaScript | • Database: | MySQL, MongoDB |
| • Library / Framework: | React.js, Spring | • Soft Skills: | Problem Solving, Active Listener, |
| • Backend: | Node.js, Rest API | | Proactive Learner, Creative Mind |

WORK EXPERIENCE

Full Stack Trainee

AU Ignite Future Skills Academy

Jaipur, Rajasthan

05/2024 - 07/2024

- Completed an intensive full-stack development course during a summer internship, focusing on building robust web applications from front-end to back-end.
- Contributed to developing 10 web applications, collaborating with a team of 5 developers.

TECHNICAL PROJECTS

Weather App | [LINK](#)

Tech Stack: HTML, CSS, JavaScript, Fetch API, OpenWeatherMap API

- Developed a responsive weather application using HTML, CSS, and JavaScript. Integrated with the OpenWeatherMap API to fetch real-time weather data based on user-provided location inputs.
- Designed and implemented a clean user interface to display current weather conditions including temperature, weather description, humidity, and wind speed.

Real-Time Chat App | [LINK](#)

Tech Stack: React.js, Firebase, Firestore

- Developed a real-time chat application using React, Firebase, and Firestore to enable seamless communication between users.
- Implemented user authentication with Firebase Authentication, allowing secure sign-ins via email/password.

Quiz Application | [LINK](#)

Tech Stack: Java, Swing (GUI), OOPs

- Developed a desktop-based quiz app using Java Swing with a login screen, rules page, and timed multiple-choice questions.
- Implemented score tracking, navigation buttons, and dynamic user interaction using OOP principles.

CERTIFICATES

MERN Stack Development – AU Foundation | [CERTIFICATE](#)

- Gained hands-on experience in creating RESTful APIs, managing databases with Mongoose, building dynamic front-end interfaces with React, and handling user authentication and deployment.

Java (Basic) - Hackerrank | [CERTIFICATE](#)

- Demonstrated proficiency in core concepts such as data types, control structures, object-oriented programming, exception handling, and basic input/output operations.

Responsive Web Design - FreeCodeCamp | [CERTIFICATE](#)

- Projects included designing layouts that adapt seamlessly across various devices and screen sizes, applying modern CSS techniques such as Flexbox and CSS Grid, and ensuring accessibility and performance best practices.

Developing Soft Skills and Personality - NPTEL | [CERTIFICATE](#)

- Completed a course designed to enhance essential soft skills for professional and personal development to improve workplace effectiveness and interpersonal interactions.
