SUMMARY

"Results-oriented data analyst with a strong foundation in computer science engineering. Proficient in Python, NumPy, Seaborn, Matplotlib, Pandas, Excel, and Tableau, with expertise in data cleaning, visualization, and advanced data analysis. Awarded the IBM Hack Challenge 2022 Jury Award for developing the GreenFlash project, showcasing analytical prowess and teamwork skills."

EDUCATION

2024	Bachelor's Degree at Govt. Engineering College, Ajmer	(CGPA: 7.7/10)
2020	Class 12th RBSE Board	(63.20 percent)
2018	Class 10th RBSE Board	(68.83 percent)

WORK EXPERIENCE

Robotics Trainer at Padhai Help Pvt. Ltd.	April 2024 - present
"Delivered training sessions on robotics, electronics, and IoT, and conducted hands-on workshops. Guided students through project-based learning, covering fundamental and advanced concepts. Additionally, mentored students, empowering them to excel in robotics and electronics"	

PROJECTS

GreenFlash	GitHub
"Developed an application that collects data on local people's day-to-day travel routines. Utilized the RANSAC algorithm to detect outliers, which helps recommend the shortest paths for delivery optimization."	

Students Result Anlaysis - EDA	GitHub
"Analyzed student performance data to identify trends, strengths, and weaknesses in academic achievement. Utilized data visualization tools such as bar charts and scatter plots to communicate findings and insights to stakeholders. Developed data-driven recommendations to improve student learning outcomes, including targeted interventions and curriculum adjustments".	

SKILLS

Programming Languages	Python, C, C++, HTML5/CSS
Data Analysis	Pandas, NumPy, Seaborn, Matplotlib, Plotly, Excel
Machine Learning	Scikit-Learn, TensorFlow, Keras, Artificial Neural Networks
Robotics and IoT	Arduino Uno, Robotics Design and Implementation, IoT Device Integration, Sensor Networks, MQTT
Tools	VS code, Gooogle Colab, MongoDB, MySQL, Orcale, Figma, Canva, GitHub
