Summary

Final-year B.Tech Information Technology student with strong foundation in machine learning, software engineering, and full-stack web development. Experienced in customer segmentation, web scraping, and building scalable e-commerce platforms. Proficient in Python, scikit-learn, React, Node.js, SQL, and cloud technologies (AWS, Azure). Skilled in backend development, data processing, and deploying machine learning models. Eager to contribute technical expertise and problem-solving skills to innovative teams.

Education

Swami Keshvanand Institute of Technology, Management & Gramothan

Nov 2022 – July 2026

Bachelor of Technology — Information Technology

CGPA: 7.74

St. Stephen's Senior Secondary School

Till July 2022

Class XII — Science (Mathematics)

Percentage: 82%

Technical Skills

Languages: Python, C++, Java, JavaScript, SQL, Bash

Web: HTML, CSS, React, Node.js, Express.js, Bootstrap

Frameworks/Libraries: FastAPI, Flask, NumPy, pandas, scikit-learn, BeautifulSoup, Selenium, Streamlit

Databases: MySQL, PostgreSQL, MongoDB, Firebase

Cloud/DevOps: AWS, Azure, Docker, Kubernetes, GitHub Actions, CI/CD, Nginx, Shell Scripting

Tools: Git, GitHub, Postman, VS Code, Linux

Experience

Data Science Intern

June 2025 – August 2025

Celebal Technologies, Jaipur

Customer Segmentation System

- Developed and deployed a customer segmentation model using K-Means clustering to identify distinct customer groups, enabling targeted marketing strategies.
- Built an interactive Streamlit web application for real-time data visualization and customer segment analysis.
- Applied Python, scikit-learn, pandas, NumPy, and Streamlit for end-to-end machine learning workflow.
- Source Code: github.com/mayanktak15/celebal-dataScience

Machine Learning Intern

July 2024 – August 2024

Kistechno-Software, Jaipur

Web Scraping and Data Processing

- Designed and maintained automated web scraping pipelines using BeautifulSoup and Selenium, extracting and processing 10,000+ records daily.
- Implemented robust data cleaning, transformation, and feature engineering workflows to enhance model performance.
- Integrated APIs and automated data ingestion using Python, pandas, and Selenium.

Projects

Urban Commerce Clothing Website

Personal Project

Full-Stack E-commerce Platform

React, Node.js, Firebase

- Developed a scalable e-commerce platform with user authentication, product management, shopping cart, and order processing using Firebase Authentication.
- Designed RESTful APIs with Express.js and built a responsive UI with HTML, CSS, and JavaScript.
- Live: urban-commerce-shopi.vercel.app | Code: github.com/mayanktak15/UrbanCommerce
