SKILLS

Salesforce Administration	Flows	Apex Programming
Salesforce Development	REST API	Apex Trigger
Lightning Web Component	SOAP API	Test Classes
Salesforce Integration	Metadata API	Visualforce Page
Object Oriented Programming	Streaming API	GraphQL API
Service Cloud Basic	Financial Service Cloud Basic	Visualforce Page

EDUCATION

Bachelor of Commerce

S.S. Jain Subodh PG Autonomous College

07/2020 - 08/2023 Jaipur, Rajasthan, India

Master of Science in Information Technology

S.S. Jain Subodh PG Autonomous College

09/2023 - Present Jaipur, Rajasthan, India

WORK EXPERIENCE

Associate Software Engineer

Helios Web Services LLP

10/2023- Present Jaipur, Rajasthan, India

Roles/Responsibilities:

- Customize Salesforce platform using Apex, Visualforce, and Lightning Web Components.
- Configure objects, fields, layouts, flows, and approval processes to meet business needs.
- Manage data with Data Loader and other migration tools.
- Develop integrations using REST, SOAP APIs, and Salesforce Connect.
- Document technical designs and provide support to end-users.
- Stay updated with Salesforce updates and collaborate with stakeholders to deliver solutions.
- Analyze and troubleshoot technical issues efficiently.

PROJECTS

- **Salesforce Data Management (SDM)**

- Salesforce Data Management (SDM) project resolves storage limitations by facilitating file uploads to external cloud platforms like Amazon S3 or Microsoft Azure via REST API.
- Metadata related to uploaded files is stored in Salesforce for convenient retrieval.
- Utilizes REST API endpoints for operations such as GET, POST, and DELETE, ensuring seamless data manipulation.
- Lightning Web Components are employed to present data, enhancing user experience.
- Emphasizes security, scalability, and performance to ensure robust data management within Salesforce.
- Provides comprehensive data management functionalities while addressing storage constraints.

- **Turf Ground Booking (Salesforce Site)**

- Developed Turf project using Salesforce Site Builder and Lightning Web Components.
- Administrators set up turf grounds with up to 3 slots each, featuring advanced validation for accurate scheduling.
- Customers can book slots via a portal integrated into the site.
- Data stored efficiently in Salesforce, integrated with CRM.
- Prioritizes scalability, performance, and continuous improvement based on user feedback.
- Website Reference: <https://helios-c-dev-ed.develop.my.site.com/Playsports>

- **Salesforce Integration with Github**

- Implemented Salesforce-GitHub integration using webhooks for real-time data exchange.
- Designed and deployed an Apex REST Resource class with an HTTP POST method to capture, process, and store push event data from Visual Studio Code (VS Code) to GitHub.
- Facilitated automatic retrieval and storage of essential metadata like push time and author details within Salesforce objects.
- Streamlined development workflows and improved collaboration and productivity across teams.
- Enhanced visibility into GitHub activities within Salesforce, fostering better coordination and decision-making.

- **Metadata Deployment Application**

- Led the development of a Metadata Deployment Application facilitating smooth transfer of metadata between Salesforce orgs.
- Utilized Metadata API for seamless retrieval and deployment of various components like custom objects, Apex classes, and profiles.
- Designed and implemented Lightning Web Components (LWC) to visually represent metadata on the user interface, enhancing usability.
- Acquired deep insights into the significance and operational intricacies of Salesforce metadata.
- Integrated an online API for file comparison to enable users to visualize changes between file versions.
- Implemented robust authorization mechanisms using access tokens to ensure data integrity and confidentiality during deployments.

CERTIFICATES

- Salesforce Certified Administrator
- Salesforce Certified Platform App Builder
- Salesforce Certified Platform Developer 1
- Salesforce Certified Javascript Developer 1
- Salesforce Certified Associate
