SUMMARY

Results-driven Salesforce Developer with more than 3 years of experience specializing in SFDC configuration and customization. Proven expertise in implementing Sales and Service Cloud solutions using both declarative features (Flow, Process Builder, Permission Sets) and programmatic development (Apex, Lightning Web Components, Aura). Skilled in REST API integrations, CI/CD pipeline management via Copado, and data analytics. Successfully delivered business process implementations for investment sector clients while driving process innovation through custom utility development.

SKILLS

Core Platform Skills

Salesforce Administration | Apex Programming | SOQL & SOSL | Lightning Components (LWC & Aura) | Flows & Process Builder | Apex Triggers | Validation Rules | Object & Field-Level Security | Permission Sets | Record Types | Reports & Dashboards | Salesforce Integrations

Utilities & Project Tools

Copado | Git | Jira | Salesforce Inspector | Workbench | Data Loader | Postman

EXPERIENCE

Salesforce Developer and Administrator

Cognizant

06/2022 - Present Gurgaon, India

- Worked on end-to-end Salesforce implementations and enhancements for major global clients including Manulife, Johnson & Johnson, and Sanofi.
- Automated the end-to-end Policy Surrender process, replacing manual 4-page PDF flow with a digital LWC form, enabling instant Salesforce Case creation and reducing surrender time from 7+ days to 2-3 days.
- Replaced 20+ legacy Process Builders with Flows, reducing execution time by 30% and increasing system maintainability.
- Spearheaded end-to-end Salesforce implementation for investment segment, managing business process automation and system integrations using Copado CI/CD pipeline.
- Successfully managed data migration and integration projects using Data Loader and REST APIs.
- Developed customized reports and dashboards for various departments, enabling better decisionmaking.
- Ensured code quality by following best practices and conducting thorough unit testing before deployment into production environments.
- Optimized day-to-day operations through the creation of workflow rules, approval processes, and process builders.
- Reduced manual data entry for the sales team by automating processes using Apex triggers and classes.
- Assisted in troubleshooting technical issues related to Salesforce platform, providing prompt resolution to minimize downtime.

EDUCATION

Bachelor's of Engineering - Computer Science

Chandigarh University

2018 - 2022
