OBJECTIVE

Business Intelligence Developer with 3 years of experience in Predictive Analytics, Machine Learning, Power BI, Tableau, and SQL. Adept at creating data-driven dashboards and building models that generate actionable insights. Seeking to leverage my experience in Descriptive and Predictive Analytics, EDA, and Cloud-based AI solutions to optimize decision-making and drive innovation.

PROFESSIONAL SUMMARY

Experienced Data Analyst with strong expertise in Exploratory Data Analysis (EDA), Predictive Modeling, and Dashboard Development. Proficient in using tools like Python, SQL, Tableau, and Power BI across domains including healthcare, BFSI, and sales. Skilled in data modeling, machine learning, data visualization, and cloud-based deployment (AWS/Azure). Effective communicator and collaborative team player with a knack for solving complex analytical problems.

SKILLS

• Power BI • Tableau • SQL Server • Python • Machine Learning • Predictive Analytics
• EDA • Data Modeling • AWS (Basics) • Azure(Basics) • ETL

TECHNICAL SKILLS

- BUSINESS INTELLIGENCE TOOLS:** Power BI Desktop, Tableau Desktop, MicroStrategy
- DATABASES:** SQL Server, MySQL, Snowflake, PostgreSQL
- LANGUAGES:** SQL, T-SQL, Python, PL/SQL
- TOOLS:** SSMS, Oracle SQL Developer, JIRA, Microsoft Teams
- ML & ANALYTICS:** Predictive Modeling, Regression, Classification, EDA
- CLOUD:** Basic experience with AWS & Azure for AI-driven analytics
- ADDITIONAL TOOLS & CONCEPTS:** Deployment, Data Integration, Transformation, Scheduling

PROFESSIONAL EXPERIENCE

ACL DIGITAL – Bengaluru, KA
Senior Technical Executive, October 2024 – Present

PROJECTS:

Line Losses Analytics:

Domain	Research and Development
Tools and Technologies	Tableau
Database	Microsoft Teams, SQL, Excel
Client	Schneider Electric
Role	Data Visualizer
Duration	6 months
Project Description:- Developed a predictive dashboard in Tableau to identify and resolve production inefficiencies in manufacturing.	

Roles and Responsibilities:

- ◆ Developed a Predictive Dashboard using Tableau to identify and mitigate production bottlenecks.
- ◆ Collaborated on EDA and data modeling to support business decisions.
- ◆ Worked closely with data engineers to structure relational models in SQL.
- ◆ Conducted data validation and iterative improvements with stakeholders.

NEOSOFT SYSTEMS AND CLOUD SERVICES – Pune, MH

Data Analyst, December 2022 – October 2024

PROJECTS:

1) Sales Forecast Analytics:

Domain	Sales and Marketing
Tools and Technologies	Microsoft Power BI
Database	SQL, Excel, Postgresql, API, Microsoft Teams
Client	Australian Agricultural Company (AACo)
Role	Microsoft Power BI Developer Associate
Duration	10 months
Project Description: Built a sales forecasting dashboard leveraging Power BI to predict revenue trends and guide marketing strategies.	

Roles and Responsibilities:

- ◆ Analyzed business requirements and created functional specifications for solution development.
- ◆ Built a Predictive Analytics model to forecast sales trends using historical data.
- ◆ Leveraged Python for data transformation and feature engineering.
- ◆ Provided dynamic visual insights through Power BI dashboards.

2) Account Receivable Analytics:

Domain	Healthcare and Finance
Tools and Technologies	Tableau
Database	SQL Server
Client	Elevance Health Inc.

Role	Tableau Developer
Duration	12 months
Project Description:- Created Tableau dashboards to monitor and predict customer payment behaviors in the healthcare and finance sectors.	
<u>Roles and Responsibilities:</u> ◆ Gathered business requirements and extracted data from SQL databases into Tableau. ◆ Developed dashboards to monitor customer payments and predict delays. ◆ Performed EDA to uncover payment trends and customer behavior. ◆ Interacted with clients to analyze requirements and develop technical solutions.	
GEBBS HEALTHCARE SOLUTION – Airoli, MH <i>Trainee, July 2022 – December 2022</i>	
<u>Roles and Responsibilities:</u> • Developed basic dashboards using Power BI. • Gained foundational experience in visual analytics and chart optimization.	

EDUCATION	ADDITIONAL DETAILS
CHANDIGARH UNIVERSITY – Chandigarh, PB <i>Master of Computer Applications, Pursuing (2023 – 2025)</i> MODEL COLLEGE OF SCIENCE AND COMMERCE – Kalyan, MH <i>Bachelor of Science in Computer Science, August 2019 - May 2022</i> Graduated with 8.13 CGPA	• Excellent Communication skills • Languages Known: English, Hindi, Marathi • Hobby includes Reading books, Travelling, Listening Music

CERTIFICATIONS
• Simplilearn Certified SQL Professional Simplilearn – [May 2025]

RECOGNITION
• Recognized by manager for maintaining detailed use case tracking and documentation, including Tableau files and logs for dashboards and database work.
