SUMMARY

Technology-focused graduate with hands-on experience in full-stack and mobile application development using the **MERN** stack and **React Native**. With practical experience in Linux environments, basic server configuration, and cloud-based deployment workflows. Currently strengthening expertise in AWS-based cloud infrastructure and deployment practices.

EDUCATION

Amity University Rajasthan

Aug 2023 - June 2026

Bachelor of Computer Applications (BCA)

GPA: 8.38 / 10

Ryan International School , Ajmer

2023

Senior Secondary (Commerce) – 89.9%

INTERNSHIPS

React Native Intern – Celebal Technologies

May 2025 - July 2025

Duration: 2 Months

- Contributed to the development of cross-platform mobile applications using React Native with backend support from Node.js and Strapi.

SKILLS

Languages: Python , Java , PHP

Web & Mobile Frameworks: React.js, React Native, Redux, Express.js, Node.js, Expo

Databases: MongoDB, MySQL, SQLite

Cloud & Server: AWS , Linux , Basic Server Deployment

Tools & Platforms: Visual Studio Code, Git, GitHub, Postman

Professional Skills: Problem-solving, team collaboration, adaptability, technical communication

PROJECTS

AI Virtual Assistant ([live](#))

- Developed a real-time AI-enabled web and mobile assistant to automate user interactions and task execution.
- Designed functionality to support multiple user tasks through conversational AI and system automation.
- Enabled AI-driven messaging, voice commands, and YouTube/web navigation

AI Trip Planner App ([live](#))

- Developed a cross-platform mobile application using React Native.
- An AI-based travel planning application that generates personalized itineraries based on user preferences
- Implemented AI logic to suggest destinations, accommodation options, and daily travel itineraries.

AI-Powered Code Enhancer and Reviewer ([live](#))

- Developed using the MERN stack to deliver a seamless web-based experience.
- Designed features to identify code issues, suggest improvements, and enhance overall code quality.
- Provides intelligent code reviews focused on readability, structure, and best practices.

Other Mini projects: [Medicine Reminder App](#) , [ChatApp](#) , [MovieApp](#)

ADDITIONAL INFORMATION

- Languages:** English, Hindi and German (Basic)
- Certifications:** AWS Cloud Practitioner (CFL C02) | 2nd Position in CodeCraze Hackathon | TCS iON
- Activities:** Technical Team Member — E-Cell Incubator, Amity University Jaipur
