

Rajadesingu J

2X Certified Junior Salesforce Developer

Phone: +91-8637672715 | Email: rajadesingurj@gmail.com | LinkedIn: [Profile](#) | Trailhead: [Profile](#)

Profile Summary

Enthusiastic Salesforce Developer with a solid foundation in Salesforce technology, complemented by a year-long internship at Intelogik Solutions. Certified in Salesforce Platform Developer I and Salesforce Administrator, I bring hands-on experience in Visualforce Pages, Lightning Web Components (LWC), and Salesforce.com Development. I excel in building and optimizing tailored Salesforce solutions, including custom applications and workflow automation. My strong problem-solving skills and collaborative approach make me a valuable team player. Eager to leverage my Salesforce expertise to drive business efficiency and growth, I am committed to contributing innovative solutions to your team.

Skills

- **Salesforce Administration:** User Management, Security and Access Management, Data Management (Data Loader), Custom Objects and Fields, Workflow Rules, Process Builder, Reports and Dashboards
- **Development:** Apex Programming, Visualforce Pages, Lightning Web Components (LWC), Lightning Flow, SOQL & SOSL, Custom Application Development
- **Deployment:** Change Set Management, Data Migration, Problem-Solving, Debugging
- **Collaboration:** Team Work, Documentation, Quality Assurance

Certifications

- **Salesforce Certified Administrator** (ADM-201)
- **Salesforce Certified Platform Developer I** (CRT-450)

Experience

Company: Intelogik Solutions

Remote | May 2023 - June 2024

Role: Salesforce Developer Intern

- **Collaborated with Senior Developers:** Partnered with experienced developers to design and implement custom Salesforce solutions, including Visualforce pages, Apex triggers, and batch processes, ensuring seamless integration and functionality.
- **Salesforce Lightning Customization:** Assisted in the customization and development of Salesforce Lightning components and Lightning Web Components (LWC), significantly enhancing the user interface and overall functionality.
- **Salesforce Administration:** Supported essential Salesforce administration tasks such as user management, profiles, roles, permissions, and comprehensive data management, ensuring optimal system performance and user satisfaction.
- **Deployment and Change Management:** Managed deployments using change sets from sandbox to production environments, ensuring smooth transitions and minimal disruptions.

- **Quality Assurance and Documentation:** Contributed to rigorous testing, debugging, and documentation efforts to deliver high-quality Salesforce solutions. Facilitated effective knowledge transfer within the team, promoting best practices and continuous improvement.
- **Custom Application Development:** Developed custom applications using Apex, Visualforce, and Lightning components to meet specific business requirements.
- **Workflow and Process Automation:** Implemented workflow rules, process builder, and approval processes to automate business workflows and improve efficiency.
- **Data Management:** Utilized Data Loader for data import, export, update, and delete operations, maintaining data integrity and accuracy.
- **User Training and Support:** Conducted user training sessions and provided ongoing support to ensure effective use of Salesforce solutions.
- **Performance Optimization:** Identified and resolved performance issues, optimizing the performance of Salesforce applications.

Company: Teleperformance India Pvt Ltd

Jaipur | October 2022 - May 2023

Designation: Technical Support Executive

Client: Sony India

- Provided exceptional customer service and technical support for Sony product users.
- Resolved issues related to Sony electronics and home entertainment systems.

Company: Teleperformance India Pvt Ltd

Jaipur | August 2018 - July 2019

Designation: Customer Care Executive

Client: Uber Eats India

- Assisted with order placements, delivery issues, and payment queries.
- Efficiently resolved complaints, ensuring high customer satisfaction and exceeding KPIs.

Projects

Project 1: Salesforce Implementation for IT Training Company

- ❖ **Challenge:** Inefficiencies in lead capture, enrollment, and data management affecting productivity.
- ❖ **Solution:** Led Salesforce implementation to optimize processes and automate workflows.
- ❖ **Responsibilities:**
 - Automated lead capture and streamlined enrollment processes using web-to-lead forms and workflow rules, reducing processing time by 30%.
 - Developed custom Visualforce Pages for enhanced user interaction and streamlined data entry processes.
 - Created scalable solutions to support 50% enrollment growth.
 - Implemented a Discount Calculator app for salespeople to calculate group discounts for multiple students.
 - Utilized future methods and batch Apex for efficient data processing.
 - Verified trainer records accurately using Asynchronous Apex methods.
 - Implemented Lightning Flows and Email-to-Case for process automation.
 - Ensured data integrity with validation rules, profiles, role hierarchy, and permission sets.
 - Deployed Dynamic Ownership Assignment and case auto-escalation with email notifications for Cases.
 - Utilized Data Loader for seamless data management and lead capture.
 - Created insightful reports and dashboards to monitor key metrics and support decision-making.
 - Applied Agile methodology to ensure iterative development and maintain SDLC (Software Development Life Cycle).

❖ **Outcomes:**

- Delivered a robust system that improved efficiency and provided valuable insights.
- Reduced lead processing time by 30%, allowing for quicker response to prospective students.
- Supported 50% growth in enrollments without additional administrative burden.
- Improved operational efficiency through automated workflows, reducing manual tasks.
- Enhanced data integrity and security, ensuring accurate and reliable data.
- Enabled dynamic case management with automated notifications, improving customer service response times.
- Provided actionable insights through detailed reporting, aiding strategic decision-making.

Lightning Web Components (LWC) for Streamlined Customer Onboarding in Hotel Management

- **Challenge:** Needed to streamline customer onboarding to enhance guest registration and payment processing.
- **Solution:** Developed LWC system for a responsive and user-friendly onboarding process.
- **Responsibilities:**
 - Designed LWC components for registration, hotel selection, and payment, providing an intuitive and responsive user interface.
 - Integrated components with the Salesforce backend using Apex to ensure seamless data flow and processing.
 - Conducted rigorous testing to ensure data security compliance and system reliability.
 - Collaborated with the design team to ensure a user-friendly interface, adhering to Salesforce Lightning Design System (SLDS) guidelines.
 - Implemented real-time data validation and error handling in LWC to enhance user experience and data accuracy.
- **Outcomes:**
 - Improved user experience with an intuitive, responsive design that facilitated easy navigation and operation.
 - Enhanced operational efficiency through centralized data management, reducing manual entry and errors.
 - Ensured compliance with data privacy regulations, protecting customer information.
 - Reduced onboarding time by 20% through optimized workflows, allowing quicker guest processing.
 - Achieved high user adoption rates due to the improved usability and convenience of the system.
 - Enabled seamless mobile access, enhancing flexibility and accessibility for users.
 - Provided comprehensive documentation and user training to ensure smooth adoption and effective use of the new system.

Education

Mailam Engineering College | Bachelor's Degree
Stream: Mechanical Engineering

TamilNadu | July 2014 - April 2018
CGPA - 7.9
