SUMMARY

Data-driven Analytics professional with hands-on **AI/ML internship** experience in predictive modelling, exploratory data analysis, and dashboard development. Proficient in Python, SQL, Power BI, and ETL processes to deliver scalable, data-driven solutions aligned with enterprise standards.

SKILLS

Data Analysis: Data Cleaning, Data Transformation, Data Validation, Exploratory Data Analysis (EDA), Feature Engineering, KPI Development

Database & Querying: MySQL, SQL (Join, Subqueries, CTEs, Window Functions, Query Optimization)

Programming: Python (Pandas, NumPy, Scikit-learn, Matplotlib)

Business Intelligence & Visualization: Power BI (Interactive Dashboards, DAX, KPI Reporting), Advanced Excel (Pivot Tables, Power Query, Data Validation), Tableau

Statistics & Analytics: Hypothesis Testing, Statistical Modelling, Descriptive & Inferential Statistics, A/B Testing, KPI Analysis

Machine Learning: Regression, Classification, K-Means Clustering, Model Evaluation, Predictive Analytics

Data Engineering Concepts: ETL Processes, Data Modelling

Tools: Jupyter Notebook, Git & GitHub, Visual Studio Code (VS Code)

Soft Skills: Analytical Thinking, Problem-Solving, Requirement Gathering, Stakeholder Communication, Attention to Detail, Time Management, Team Collaboration, Presentation Skills

INTERNSHIP

DATA ANALYST INTERN

JUNE 2025 – JULY 2025

Dynamic System, Bhubaneswar

- Tools & Technologies:** SQL (MySQL), Power BI, Advanced Excel, Python (Pandas, NumPy), Data Modelling, Statistical Analysis, ETL
- Investigated 50,000+ sales records using SQL and Python to uncover revenue trends and regional performance insights.
- Performed EDA and data transformation, improving reporting accuracy by ~20% and enhancing data reliability.
- Built interactive Power BI dashboards with DAX to track KPIs and automate performance reporting.
- Applied statistical analysis and optimized ETL workflows, reducing manual reporting effort and improving decision-making efficiency.

AI / MACHINE LEARNING INTERN

JUNE 2024 – JULY 2024

Central Tool Room & Training Centre (CTTC), Bhubaneswar

- Tools & Technologies:** Python, OpenCV, face_recognition, NumPy, MySQL, Machine Learning, Computer Vision
- Improved an automated Face Recognition Attendance System using Python and Computer Vision techniques.
- Implemented machine learning-based face detection and recognition, improving system accuracy by ~15%.
- Integrated MySQL database for structured attendance data storage and optimized retrieval performance.
- Systematized report generation, reducing manual attendance processing effort by approximately 25%.

PROJECTS

Sales Analytics & KPI Dashboard Development | Tableau, Excel, Business Intelligence

- Tools & Technologies:** Tableau, Advanced Excel (Pivot Tables, Power Query), Data Cleaning, Data Transformation, KPI Reporting, Business Intelligence
- Examined structured sales dataset to evaluate revenue trends, profit margins, and regional performance metrics.
- Completed data cleaning and transformation in Excel to ensure data integrity and reporting accuracy.
- Enhanced interactive Tableau dashboards with calculated fields, filters, and KPI indicators for performance monitoring.
- Conducted trend and comparative analysis to generate actionable business insights for data-driven decision-making.

Predictive Modelling & Regression Analysis for Real Estate Price Estimation

- Tools & Technologies:** Python, Pandas, NumPy, Scikit-learn, XGBoost, Matplotlib, SHAP, Streamlit, Machine Learning, Feature Engineering
- Improved a supervised machine learning model to predict real estate prices using Linear Regression, Random Forest, and XGBoost algorithms.
- Executed data cleaning, pre-processing, and feature engineering to handle missing values and improve model performance.
- Applied k-fold cross-validation and evaluated models using R^2 , MAE, and RMSE to ensure reliable predictions.
- Used SHAP for basic model interpretability to understand key factors influencing price estimation.
- Deployed the trained model using streamlit to build a simple interactive web application for real-time price prediction.

EDUCATION

Bachelor of Technology | Gandhi Institute of Excellent Technocrats, Bhubaneswar | 2022 - Present

Intermediate | Swami Vivekananda Memorial Higher Secondary School, Jagatsinghpur | 2020 - 2022

Matriculation | Shree Shree Mahavir Vidyaniketan, Khalagaon | 2010 - 2020

CERTIFICATIONS

Artificial Intelligence & Machine Learning for Geospatial Data Analysis – Indian Institute of Remote Sensing (IIRS), ISRO, Dehradun

Artificial Intelligence & Machine Learning using Python – Silan Software Pvt. Ltd.

Robotics & Embedded System – Teckat Service Pvt Ltd

AWARDS & ACTIVITIES

Smart India Hackathon – Internal participant, 2023, 2024, 2025

Best Core Member – Annual Fest 2025
