## OBJECTIVE

To contribute as a Salesforce Developer in a dynamic environment that values innovation and continuous improvement, where I can apply my technical skills to deliver impactful solutions and grow as a valuable asset to the organization.

## WORK EXPERIENCE:

### CreationRDS India Private Limited | Jan 2024 – July 2025

- Salesforce Certified Developer with 2 years of experience in scalable CRM solutions
- Worked across Education, Experience, Sales, and Service Clouds
- Proficient in Apex, LWC, Visualforce, Flows, and SOQL
- Hands-on experience with Salesforce Industries (Vlocity)
- Skilled in REST/SOAP API integrations and third-party system connectivity
- Experienced in CI/CD deployments using Gearset and Git
- Developed custom education-centric applications and portals
- Familiar with Salesforce best practices including security model, automation (Flows) and data modeling
- Focused on delivering clean, efficient, and user-friendly CRM solutions aligned with business needs

## SKILLS

| Category                        | Skills & Tools                                                                                                     |
|---------------------------------|--------------------------------------------------------------------------------------------------------------------|
| Salesforce Clouds               | Education Cloud, Sales Cloud, Service Cloud, Experience Cloud                                                      |
| Core Development                | Apex (Synchronous & Asynchronous), Lightning Web Components (LWC), Visualforce                                     |
| Declarative Tools               | Flows, Process Builder, Validation Rules, Approval Processes, Workflows                                            |
| Salesforce Industries (Vlocity) | OmniScripts, FlexCards, Integration Procedures, DataRaptors                                                        |
| Data Management                 | SOQL, SOSL, Data Loader, Custom Metadata Types                                                                     |
| UI Customization                | Experience Cloud Site Builder, Custom Themes, Page Layouts, Dynamic Forms                                          |
| Deployment & DevOps             | Gearset, Git, Change Sets, Sandbox Management, CI/CD Pipelines                                                     |
| Testing and Other Tools         | Apex Test Classes, Code Coverage, Debug Logs, Error Handling, VS Code with Salesforce CLI, Developer Console, Jira |

## PROJECTS:

---

### Project # 1 – Schmidt Science Fellows – Admissions (SSF)

**Client :** Schmidt Science Fellows

**Environment :** Salesforce Education Cloud

**Area of work :** Admissions Process Automation, Education Cloud Customization, Email Templates, Apex Development, Flows, Gearset Deployments

**Team Size:** 18 Members

**Description:**

Worked on Salesforce Education Cloud to automate and simplify the admissions process for Schmidt Science Fellows. The project included building Flows, Apex logic, and Email Templates to manage applicant communication, application tracking, and onboarding in a scalable and configurable way.

**Responsibilities:**

- Designed and customized Email Templates for automated communication.
- Developed Scheduled Apex and Batch Apex for background processing.
- Built Flows to automate business processes and improve efficiency.
- Used Custom Metadata Types for flexible and configurable logic.
- Created and maintained Test Classes to ensure code quality and coverage.
- Performed deployments using Gearset across sandbox and production environments.

### Project # 2 – University of Hertfordshire (UOH)

**Client :** University of Hertfordshire (UOH)

**Environment :** Salesforce Education Cloud

**Area of work :** Experience Cloud, Email Templates, Apex Development, Flows, LWC, Visualforce

**Team Size:** 8 Members

**Description:**

Designed and developed an Alumni Portal using Salesforce Experience Cloud, replicating the University of Hertfordshire's portal. Implemented automation with Flows, Apex, LWCs and Visualforce to enhance user engagement and streamline operations. Customized UI and features based on client needs, ensuring a responsive and scalable user experience.

**Responsibilities:**

- Designed and developed an Alumni Portal using Salesforce Experience Cloud, replicating the University of Hertfordshire's original portal.
- Implemented automation using Flows, Apex, and Lightning Web Components (LWC) to streamline operations and improve user engagement.
- Embedded Salesforce Dashboards into Visualforce Pages for real-time reporting and enhanced visibility within the portal.
- Customized features and UI based on client-specific requirements and feedback.
- Ensured seamless integration of dynamic components and optimized the portal for performance and user experience.
- Collaborated with stakeholders to analyze business needs and deliver scalable, modular solutions.

### Project # 3 – University of Liverpool (UOL)

**Client :** University of Liverpool (UOL)

**Environment :** Salesforce Education Cloud

**Area of work :** Apex Testclasses, Gearset Deployments

**Team Size:** 10 Members

**Description:**

Developed test classes for Apex logic integrated with OmniScripts in Salesforce Industries (Vlocity), ensuring error-free data flow. Achieved high code coverage and maintained deployment readiness with Salesforce best practices. Managed and deployed changes using Gearset with automated pipelines for smooth and reliable releases.

**Responsibilities:**

- Developed test classes for Apex logic integrated with OmniScripts in Salesforce Industries (Vlocity), ensuring seamless data flow, API interactions, and robust error handling.
- Used FlexCards to build a dynamic application form, providing contextual display of data and enhancing user experience.
- Achieved high code coverage and maintained deployment readiness in line with Salesforce best practices.
- Managed and deployed changes using Gearset, enabling smooth, automated, and traceable CI/CD workflows.
- Validated and promoted changes across environments through automated deployment pipelines, reducing manual effort and improving release reliability.

**CERTIFICATIONS**

- Salesforce Certified Administrator
- Salesforce Certified Platform App Builder
- Salesforce Certified Platform Developer – I
- Salesforce Certified AI Associate
- Salesforce Certified Agentforce Specialist

**EDUCATION**

| Year        | Degree                                            | Institute                         | Percentage/<br>CGPA |
|-------------|---------------------------------------------------|-----------------------------------|---------------------|
| 2020 – 2024 | B.Tech – Artificial Intelligence and Data Science | Sona College of Technology, Salem | 8.74                |
| 2018 – 2020 | IPE – MPC                                         | Gurus Junior College, Mangalagiri | 91%                 |
| 2017 – 2018 | SSC                                               | Sivani High School, Ongole        | 9.7                 |
