SUMMARY

Experienced Salesforce Certified Professional with a proven track record of almost 3 years in designing, developing, and optimizing Salesforce CRM platforms. Skilled in crafting Apex Classes, Triggers, Lightning Web Components (LWC), Workflows, and Custom Objects. Proficient in Salesforce Administration, Data Management, and Project Management. Adept at providing comprehensive end-user training and ensuring data accuracy. Strong problem-solving skills, collaborative mindset, and effective communication abilities. Eager to leverage technical expertise and leadership experience to drive continuous improvement and maximize Salesforce's potential for the organization.

WORK EXPERIENCE

iPEM Solutions (StartUp)
Salesforce Developer

Nov 2023 - Present

- Manage and optimize the claimant portal for the Employment Development Department for the State of California within OSAAS LLC focusing on enhancing user experience and streamlining claim filing processes.
- Designed and implemented customized templates and Lightning Web Components (LWC) to meet specific claimant criteria, ensuring a seamless and efficient claim filing experience.
- Collaborated closely with cross-functional teams, including business stakeholders and regulatory experts, to align portal functionalities with operational needs and regulatory standards.
- Conducted thorough user acceptance testing (UAT) to validate portal functionalities and ensure compliance with EDD guidelines and industry best practices.
- Provided comprehensive end-user training sessions for EDD staff and claimants, facilitating effective utilization of portal features and maximizing user satisfaction.
- Regularly monitored portal performance, conducted data analysis, and implemented performance enhancements to improve usability, efficiency, and scalability.

Tata Consultancy Services
Salesforce Developer

July 2021 - Nov 2023

- Developed code that resulted in a 17% improvement in overall functionality by addressing a critical bug impacting order management. Worked with the business team to understand the bug's impact and developed an efficient solution meeting requirements and by conducting thorough testing and debugging to ensure the code fix was successful.
- Experience with Custom Settings, Custom Metadata, and Single Sign-On, ensuring seamless integration and enhanced security.
- Proficient in Salesforce Administration, managing Profiles, Permission Sets, OWD, Sharing Rules, Queues, and Public Groups.
- Demonstrated expertise in creating and maintaining Reports and Dashboards giving insights for decision-making and data-driven strategies.
- Configured and customized Objects and Fields, optimizing the platform, implemented Workflow Rules, Tasks, Workflow Updates, Duplicate Rules, Matching Rules, Email Alerts, and Custom Notifications to streamline business processes and align with business requirements.

- Utilized Process Builders, Flow Builders, and Validation Rules to automate complex workflows and improve operational efficiency.
- Proficient in App Manager, Tabs, App Pages, Flexi Pages, Page Layouts, and ListViews creating intuitive user interfaces and enhancing user experience.
- Showcased strong communication and presentation skills, effectively communicating complex technical concepts to non-technical stakeholders
- Experienced in the Agile development environment, collaborating with cross-functional teams to deliver high-quality solutions within tight deadlines.
- Demonstrated problem-solving skills by consistently troubleshooting and debugging Salesforce issues, continuously identifying areas for enhancement and implementing best practices to drive efficiency.
