WORK EXPERIENCE

ITNetworkZ Infosystems Pvt Ltd. Nagpur | Salesforce Developer

Project Name: US Based Banking Domain.

March 23 - Present

- Developed and maintained custom objects, fields, validation rules, flows, and process builder to automate key business processes, reducing manual errors by 30%.
- Designed and delivered comprehensive training sessions for sales and customer service teams, ensuring seamless adoption of Salesforce tools and methodologies.
- Spearheaded the implementation and customization of Salesforce CRM solutions tailored to the specific needs of the banking sector, resulting in a 25% increase in sales productivity.
- Collaborated with cross-functional teams to integrate Salesforce with third-party applications, such as banking software systems, enhancing data integrity and streamlining operations.
- Implemented advanced reporting and dashboard solutions to provide real-time insights into sales performance, customer trends, and pipeline forecasting, enabling agile decision-making.

ITNetworkZ Infosystems Pvt Ltd. Nagpur | Salesforce Developer

Project Name: US Based Banking Domain.

March 22- March 23

- Customization and Configuration:** Tailored Salesforce CRM to align with the specific requirements of the US-based food industry, including custom objects, fields, validation rules, Trigger, Asynchronous Apex and flow automation.
- Data Management:** Managed data integrity and hygiene within Salesforce, performing regular data cleansing, deduplication, and migration tasks to ensure accurate reporting and analytics.
- Integration and App Development:** Integrated third-party applications and tools with Salesforce to extend its functionality, such as ERP systems for inventory management and marketing automation platforms for targeted campaigns.
- Reporting and Analytics:** Designed and generated custom reports and dashboards to provide actionable insights into sales performance, customer trends, and pipeline forecasting for management decision-making.
- Security and Compliance:** Implemented robust security measures and compliance standards within Salesforce to safeguard sensitive customer data and ensure adherence to industry regulations such as GDPR and CCPA.

Achievements:

- Successfully implemented a customized lead management process in Salesforce, resulting in a 20% increase in lead conversion rates within the first quarter.
- Optimized Salesforce flows and automation rules, reducing manual data entry tasks by 30% and improving overall sales team productivity.
- Led the migration of legacy CRM data to Salesforce, completing the project ahead of schedule and minimizing downtime for the sales team.

JDIT Business Solution Pvt Ltd. Pune. | Salesforce Developer

Project Name: Warehouse.

February 21- March 22

- Proficient in configuring Salesforce features such as lead management, opportunity tracking, and inventory management to optimize sales processes and enhance warehouse operations.
- Proficient in utilizing Salesforce, a leading customer relationship management (CRM) platform, to streamline sales processes, manage customer interactions, and drive business growth within the warehouse industry.
- Experienced in customizing Salesforce to meet specific business needs, optimizing flows, Coding Logics and generating insightful reports to inform strategic decision-making.
- Skilled in leveraging Salesforce features such as lead management, opportunity tracking, and forecasting to effectively manage sales pipelines and maximize revenue potential.
